High-Yield Savings Accounts Vs. Standard Savings Accounts JOSHUA. KING, 2025-03-18 Do you want to save your money in a bank account that pays 0.1%? That isn't enough money for anything. I prefer to save my emergency fund in a high yield savings account that pays 4.0% or higher. Over 30 years, a R15 000 deposit in a high yield savings account would become R45 000, while the same R15 000 would grow to R15 500 in a standard savings account. The first step to financial freedom is following a strict budget. After that, you must save in a high yield savings account to give every dollar a mission. Good Luck!
