Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is making a meal or recipe then portioning it out to grab and go meals for later. If you've ever kept your leftovers from dinner to take with you for lunch then next time you've made a mini meal prepped. Generally though meal prepping refers to making 3-7 days worth of food at a time. Think of it like making your lunches for the week all at once instead of making your lunch throughout the day. You can use this same technique for breakfast, lunch, dinner, and snacks. Meal prepping doesn't necessarily waste and reduce time to eat outside unless you plan ahead or a budget. When making your meal plan, ask yourself the question: "How long will it take to eat healthy meals without having to do it every day?" Meal prepping is not for everyone. It is good for those who value convenience and free more time than cost. With meal prepping you generally eat the same thing for a few days in a row so you don't get bored with food. Meal prepping is not for those who are maximizing their time or budget. It is more of a lifestyle than a diet. Meal prepping is not for everyone.
