

# 9 Tips to Master Your Morning

## 2. CUSTOMIZE YOUR ALARM

Instead of the traditional alarm, why not try waking up to one of your favorite songs? When you are gently roused from your slumber by a soft tune, you're likely to feel peaceful and composed—priceless emotions at the crack of dawn.

## 4. EAT BREAKFAST

In today's fast-paced world, it seems that the delights of breakfast are often surrendered to a hurried cup of coffee before running out the door. This is a big mistake.

## 6. TAKE THE STAIRS

Once you've made it to the office, take the stairs instead of the elevator. It's a perfect way to naturally work some exercise into your day, and it feels great to power up the steps and strut into the office feeling like you're on top of the world.

## 8. USE POWER POSES

Adjusting a simple thing like your posture can make a surprising difference in your morning. Sit with shoulders back and core engaged so you feel strong and ready for the day.

## 1. GET ENOUGH SLEEP

The National Sleep Foundation (who knew, right?) recommends 7-9 hours per night for adults. The NPF also estimates that a lack of sleep costs the United States \$65 billion a year in loss of productivity and health care expenses.

## 3. EXERCISE

Exercising in the morning makes it easier to fit exercise into your day. Also, you get a nice shot of endorphins and some natural stress-relief first thing. That makes for a good start to a great day.

## 5. TREAT YOURSELF

It always helps to give yourself a little reward for getting up in the morning and tackling the day. Find one brief activity that you enjoy, like checking your favorite news app or listening to a bit of a podcast.

## 7. ENGAGE YOURSELF

Beginning your day by slogging through emails can be a productivity and motivation killer. If you can help it, try starting your most important and demanding tasks right when you get to your desk.

## 9. PRIORITIZE YOUR DAY

Prioritizing your day, especially by writing out your tasks, helps you feel confident and engaged until it's time to head home. Trello is a great free tool that helps you organize your to-do lists.

### **Customer Service in Academic Libraries** Stephen Mossop,2015-10-06 The term customer service is not new to the academic library community

Academic libraries exist to serve the needs of their community and hence customer service is essential However the term can be applied in a variety of ways from a thin veneer of politeness to an all encompassing ethic focussing organisational and individual attention on understanding and meeting the needs of the customer For customers the library's Front Line team is the human face of the library How well they do their job can have a massive impact on the quality of the learning experience for many students and can directly impact upon their success The importance of their role and the quality of the services they offer should not be underestimated but in an increasingly digital world and with potentially several thousand individuals visiting every day whether in person or online each with their own agendas and requirements how can the library's Front Line team deliver the personal service that each of these individuals need Customer Service in Academic Libraries contributes to what academic libraries as a community do really well the sharing of best practice It brings together in one place examples of how Front Line teams from libraries across a wide geographical area Hong Kong Australia Turkey and the

United Kingdom work to get it right for their customers Between them they cover a range of institutions including research intensive mixed HE FE private establishments and shared campuses All have their own tales to tell their own emphases their own ways of doing things and all bring their own examples of best practice which it is hoped readers will find useful in their own context Discusses customer service in a library setting Translates management theory into useful practice information Examines building relationships meeting customer needs and marketing and communication Provides examples of practical experience grounded in recent transferable experience    *The Ohio Bell* ,1930    **Home Care Survival Guide** Kay Green,1998 Overviews the home care industry covering specific issues of home care visits Four units discuss recent trends skills and concepts such as cultural adaptability supervision of paraprofessionals and application of the nursing process in the home care setting clinical activities nurses perform including teaching and infection control and the actual practice of home care nursing Boxed material highlights typical dilemmas in home care compares home and hospital care and offers tips and suggestions Annotation copyrighted by Book News Inc Portland OR    *The Weekly Underwriter* ,1921    **Medicare and Medicaid Guide** ,1969    **Trust Companies** ,1920    *Trusts and Estates* ,1920 Includes proceedings and reports of conferences of various financial organizations    **Ties** ,1950    **Norfolk and Western Magazine** ,1950    **Real Estate Record and Builders' Guide** ,1914    *Country Guide and Nor'west Farmer* ,1920    **Bulletin - National Electric Light Association** National Electric Light Association,1929    *Telephony* ,1913    **N.E.L.A.
