The Involuntary Sojourner S.P. Tenhoff,2019-12-10 A debut collection of stories uncanny and profound In this striking debut S P Tenhoff takes us to real and imagined countries around the globe where characters find themselves passengers on voyages beyond the boundaries of their familiar world and their understanding of themselves A town is split in two a line painted down the middle when two warring governments decide arbitrarily to redraw borders A man hits a boy in a car accident that he begins to suspect might not have been an accident after all An aging puppeteer in Edo period Japan struggles to choose a successor before dementia overtakes him And in the title story a mysterious illness causes its victims to travel like sleepwalkers to distant countries where they wake to discover that they are now fluent in languages and cultures they previously didn't know at all Uncanny and profound these ten stories capture those pivotal moments when our sense of place and self is forever shaken and we must chart a new course
