Sorolla Gardens Of Light:

Sorolla, 2012 Presents the works that Joaquin Sorolla 1863 1923 created after 1906 1908 as a result of the artist's fascination with gardens Sorolla: Painted Gardens, 2019-04-23 Valencian master Sorolla's Impressionist paintings depict the most beautiful gardens and architecture in Spain Like Claude Monet's celebrated plein air landscapes at Giverny the series collected in this book represents among the best loved examples of Joaquin Sorolla's 1863 1923 work and a window into the Spanish painter's quest to capture the essence of a garden Described by Monet as the master of light Sorolla and his landscapes formal portraits and historically themed canvases drew comparisons to contemporary American painter John Singer Sargent Sorolla had achieved renown on both sides of the Atlantic for grand scenes of Spanish life when he began a personal series of garden works presented completely for the first time in this publication Painted at the palaces of La Granja and the Alcázar in Seville the Alhambra and Generalife in Granada and at the painter's home in Madrid these Impressionist works allowed Sorolla to apply his signature loose brushwork and training as a photographer's lighting assistant to gardens and the sculptures architecture and sitters that frame and animate them Sorolla depicted reflections in fountains and pools the sunlight dappling his glamorous sitters sprays of orange blossoms and shaded blue and white tile as he endeavored to render the radiant peace of a summer afternoon **Light as Experience and Imagination from Medieval to Modern**

Times David S. Herrstrom, 2022-11-21 In *Light as Experience and Imagination from Medieval to Modern Times* David S. Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual's relationship with light rather than the investigation of light's essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of its evolution this book celebrates the complexity of our relation to light's character No individual experience of light being truer than any other Pompeii in the Visual and Performing Arts Mirella Romero Recio, 2023-05-18 This volume examines the influence that Pompeii and to a lesser extent Herculaneum had on the visual and performing arts in Spain and countries across South America Covering topics from architecture painting and decorative arts to theatre dance and photography the reader will gain insight into the reception of classical antiquity through the analysis of the close cultural ties between both sides of the Atlantic in the past and the present Each contribution has been written by a specialist researcher participating in the project *The Reception and Influence of Pompeii and Herculaneum in Spain and Ibero America* funded by the Spanish Ministry of Science and Innovation PGC2018 093509 B I00 Ministry of Science and Innovation AEI ERDF EU Pompeii in the Visual and Performing Arts begins by examining the influence of Pompeian architecture in Spain in paintings that depict scenes inspired by Roman scenes and also buildings modelled on those of Pompeii Next the influence of Pompeii crosses the

Atlantic to Mexico with a study of the archaeological site's influence on the visual and performing arts. An exploration of the elitist use of the ancient past in architecture is seen in Chilean architecture which leads onto an investigation of the new art styles that emerged in the 19th century. Later chapters look into the influence of the ancient frescoes and the use of modern plaster casts of statues. The final chapters are devoted to comics and photography which also make a study of the places in Latin America nicknamed Pompeii in the 20th and 21st centuries.

José Luis Díez, Javier Barón, 2009. A comprehensive look at the masterworks of this influential modern Spanish painter published in association with the Museo Nacional del Prado.

The Artist's Garden Jackie Bennett, 2019-10-29. The Artist's Garden will feature up to 20 gardens that have inspired and been home to some of the greatest painters of history. These gardens not only supplied the inspiration for creative works but also illuminate the professional motivation and private life of the artists themselves from Cézanne's house in the south of France to Childe Hassam at Celia Thaxter's garden off the coast of Maine. Flowers and gardens have often been the first choice for artists looking for a subject. A garden close to the artist's studio is not only convenient for daily material and ideas but also has the advantage of changing through the seasons and over time. Claude Monet's Giverny was the catalyst for hundreds of great paintings by Monet and other artists, each one different from the one before. Sometimes a whole village becomes the focus for a colony of artists as at Gerberoy in Picardy and Skagen on the northernmost tip of Denmark. This book is about the real homes and gardens that inspired these great artists' gardens that can still be visited today. The relationship between artist and garden is a complex one. A few artists including Pierre Bonnard and his neighbour Monet were keen gardeners as much in love with their plants as their work while for others like Sorolla in Madrid his courtyard home was both a sanctuary and a source of ideas.
