*AI Act compact* Peter Hense, Tea Mustac, 2024-11-25 The EU AI Act is here and contrary to popular opinion it is not just Europe's problem. As the first comprehensive law to regulate AI systems, the AI Act attempts to establish a global framework setting limits on dynamic technological developments and creating new legal responsibilities for organisations worldwide. The AI Act's definition of AI systems is expansive, covering a wide range of technologies, even those that until recently were considered traditional machine learning models. This makes understanding and preparing for compliance even more critical because if your business involves AI, the AI Act is now your business. *AI Act Compact* is your go-to tool for tackling the challenges imposed by the Act. Written by Tea Mustac and Peter Hense, experienced legal experts and hosts of the podcast *RegInt Decoding AI Regulation*, this book provides a deep dive into the AI Act's key provisions, processes, and real-world implications. The AI Act introduces a new risk-based framework, establishing compliance assessments and relying on harmonized standards. It imposes obligations for data governance, data quality management, accuracy, and robustness, risk management, explainability, non-discrimination, accountability, liability, human controllability, and more. Implementing these requirements presents significant practical challenges, especially given their broad application to numerous actors along the AI supply chain. Drawing heavily on international technical standards from CEN, CENELEC, ISO, IEC, and IEEE, the authors provide a practical toolkit for managing AI risks and ensuring compliance. Whether you're a lawyer, data scientist, or machine learning engineer, this book offers clear, actionable strategies for staying compliant and competitive in this fast-evolving landscape.

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
