*The Personal Web* Mark Chignell, James R. Cordy, Ryan Kealey, Joanna Ng, Yelena Yesha, 2013-07-15 This book grew out of the First Symposium on the Personal Web co-located with CASCON 2010 in Markham Ontario Canada. The purpose of the symposium was to bring together prominent researchers and practitioners from a diverse range of research areas relevant to the advancement of science and practice relating to the Personal Web. Research on the Personal Web is an outgrowth of the Smart Internet initiative which seeks to extend and transform the web to be centred on the user with the web as a calm platform ubiquitously providing cognitive support to its user and his or her tasks. As with the preceding SITCON workshop held at CASCON 2009 this symposium involved a multi-disciplinary effort that brought together researchers and practitioners in data integration web services modelling and architecture human computer interaction predictive analytics cloud infrastructure semantics and ontology and industrial application domains such as health care and finance. The discussions during the symposium dealt with different aspects of the architecture and functionality needed to make the Personal Web a reality. After the symposium the authors reworked their presentations into draft chapters that were submitted for peer evaluation and review. Every chapter went through two rounds of reviewing by at least two independent expert reviewers and accepted chapters were then revised and are presented in this book.

*Identity Theft and Fraud* Norm Archer, Susan Sproule, Yufei Yuan, Ken Guo, Junlian Xiang, 2012-06-30 Personal data is increasingly being exchanged and stored by electronic means making businesses organizations and individuals more vulnerable than ever to identity theft and fraud. This book provides a practical and accessible guide to identity theft and fraud using a risk management approach. It outlines various strategies that can be easily implemented to help prevent identity theft and fraud. It addresses technical issues in a clear and uncomplicated way to help decision makers at all levels understand the steps their businesses and organizations can take to mitigate identity theft and fraud risks. And it highlights the risks individuals face in this digital age. This book can help anyone businesses and organizations of all sizes as well as individuals develop an identity theft and fraud prevention strategy that will reduce their risk and protect their identity assets. To date little has been written on identity theft and fraud with a Canadian audience in mind. This book fills that gap helping Canadians minimize their identity theft and fraud risks.
