*Intellectual Property in the Information Age* Jeffrey C. Sun, Benjamin Baez, 2009-02-03 Economic political and social forces are redefining knowledge as property that can be owned and institutions of higher education as producers of knowledge are central participants of this phenomenon Debates about intellectual property are rampant some arguing that knowledge should not become a commodity for exchange others that intellectual property fosters innovation in society What is not debatable is the importance of the law for resolving disputes about intellectual property Today the

evolving legal context associated with intellectual property and technological advancements have created competing interests and demands from individuals institutions and even nations The law is often the realm in which these interests and disputes take place with more or less satisfying results Colleges and universities must grapple with not only complex legal issues but also the philosophical and political consequences associated with the conversion of intellectual acts into property This monograph pays special attention to the intellectual property of copyrights and patents It examines how legal parameters competing interests and technological advances take shape in economic political and social contexts that require colleges and universities to make intellectual property central to their operation p 4 of cover     *The Top American Research Universities* ,2010     **The College Blue Book** Huber William Hurt,Harriet-Jeanne Hurt,1975     America's Top Jobs for People Without a Four-year Degree J.
