Cole,2025-12-02 States and institutions in both

conventionally authoritarian and formally democratic societies overtly circumscribe freedom in any number of ways Yet there are also subtler forms by which authorities and cultural forces compromise the choices of individuals in ways that do not seem at first glance to be coercive This book brings together a distinguished set of scholars to examine covert constraints on academic political and economic freedom from a variety of angles developing surprising and timely new insights Ranging across philosophy economics law health science art and the media luminaries from different fields expose threats to freedom within avowedly liberal and democratic institutions and cultures Their incisive essays both analytical and historical emphasize how economic inequality academic orthodoxy media control racism and gender roles undermine the potential for human flourishing By considering such multifarious noncoercive threats they illuminate the vexed notion of freedom Lively and learned this book offers a provocative and urgent understanding of the often unacknowledged forces that restrict our choices Contributors include David Bromwich Eric Foner Robert Gooding Williams Michael Ignatieff Laura Kipnis Anya Schiffrin Joseph E Stiglitz and Geoffrey R Stone In an essay and an interview with the volume editors Noam Chomsky addresses the neoliberal assault on academic freedom   **Power to the Players** Rob Smat,2023-11-21 Prepare yourself for the ultimate expos of the retail trading revolution The sea shanties YOLOs and red bandanas were just the beginning Did you know Robinhood didn t actually initiate the infamous trading halt Or why Redditors refer to 2021 as the sneeze rather than the squeeze And what if I told you that some shares in your brokerage account might be counterfeits If not buckle up Witness firsthand the real and utterly ludicrous hivemind that brought Wall Street to its knees in January 2021 and discover why GameStop was only the beginning of an even more unprecedented retail contagion one that will challenge everything you think you know about our markets all over again If the meme mania of 2021 drew blood from Wall Street what follows is the Shakespearean realization that Reddit s blade was in fact poisoned In a digital world where information is frequently deleted revised and buried accurately piecing together events is nearly impossible While other authors and journalists have understandably struggled Rob Smat offers a clear and unfiltered account having witnessed every twist of the GameStop phenomenon firsthand Power to the Players is as much an unabridged history of the GameStop sneeze as it is a roadmap of how retail traders regrouped when everyone else thought the story had ended in calamity The truest of diamond hands never sold and their power has only grown stronger since Before Redditors were merely a nuisance to the status quo Now they re poised to upend it completely   *A New English Dictionary on Historical Principles* ,1919   **A New English Dictionary on Historical Principles** James Augustus Henry Murray,Sir William Alexander Craigie,Charles Talbut Onions,1919
