*Securitizing Youth* Marisa O. Ensor, 2021-04-23 Securitizing Youth offers new insights on young people's engagement in a wide range of contexts related to the peace and security field. It presents empirical findings on the challenges and opportunities faced by young women and men in their efforts to build more peaceful, inclusive and environmentally secure societies. The chapters included in this edited volume examine the diversity and complexity of young people's engagement for peace and security in different countries across the globe and in different types and phases of conflict and violence, including both conflict-affected and relatively peaceful societies. Chapter contributors, young peacebuilders and seasoned scholars and practitioners alike, propose ways to support youth's agency and facilitate their meaningful participation in decision making. The chapters are organized around five broad thematic issues that correspond to the 5 Pillars of Action identified by UN Security Council Resolution 2250. Lessons learned are intended to inform the global youth peace and security agenda so that it better responds to on-the-ground realities, hence promoting more sustainable and inclusive approaches to long-lasting peace.

**International Encyclopedia of Adolescence** Jeffrey Jensen Arnett, 2006-09-22 In pre-industrial societies, people moved from childhood to adulthood directly, getting married and going to work early in life. Although this still holds true for many cultures in countries such as the USA or Japan, adolescence has become a specific stage of life where young people are cultural trendsetters and market drivers. The International Encyclopedia of Adolescence is an exhaustive socio-cultural survey of young people around the world. The focus is cultural and historical, and the work offers a rarely found worldwide perspective. Entries are compiled by experts from many fields of study, including anthropology, history, psychology, and sociology. Unlike existing works, the Encyclopedia does not stress biological or psycho-pathological issues. It addresses myths and realities of adolescence by looking at the actual life of young people in regions as varied as Iran, India, France, the USA, or Japan. It also explains how teen cultures have developed in some countries and how young people deal with the conflicts between tradition and modernity. In others, country coverage examines cultural beliefs, gender, personal and cultural identity, relationships, familial, friends, and peers, love and sexuality, education, work, media, problems, and outlook for the future, plus topics particular to the culture or region discussed.
