c't Working with AI c't-Redaktion, 2024-01-24 The special issue of c't KI Praxis provides tests and practical instructions for working with chatbots. It explains why language models make mistakes and how they can be minimised. This not only helps when you send questions and orders to one of the chatbots offered online. If you do not want to or are not allowed to use the cloud services for data protection reasons for example you can also set up your own voice AI. The c't editorial team explains where to find a suitable voice model, how to host it locally and which service providers can host it. The fact that generative AI is becoming increasingly productive harbours both opportunities and risks. Suitable rules for the use of AI in schools, training and at work help to exploit opportunities and minimise risks.

Artificial Intelligence for Urban

Planning Thomas W. Sanchez, 2025-09-22 This book aims to introduce planners to AI outlining essential concepts, terminologies and methodologies. AI now promises to reshape urban planning but as with many technological innovations AI also introduces ethical, practical and organizational challenges. Understanding both AI's current capabilities and its limitations is essential for planners even as we acknowledge the rapid and unpredictable nature of its evolution. Chapters address some of these complexities not by providing definitive answers but by introducing urban planners to core AI topics. The book shows how planners can effectively use AI in their daily practices, engage constructively with technical specialists and critically assess the appropriateness of these technologies in different planning contexts. This book will be of interest to both urban planning professionals and researchers.

THE STEALING OF EMILY - The Fantasy ('stealth philosophy')

that is our Court System Matin Newbold, 2023-07-17 When I first started writing my first book The Stealing of Emily I hardly realised how long it would take what form it would be or what the real situation was. A similar situation is starting to emerge again with the advertisement of my book on social media. I was not ready for the feedback from the lovely people who liked the page on Facebook and poured their hearts out with the misery that these kidnappers had brought to their families. It was apparent from the outset that this process was going to itself have a story of its own. This is a piercing account of a justice system that faltered at its core. Through a three pronged or tripod approach the book examines the uncertified judge who presided over jurisdictional errors and an unlawful ruse allowing perjury and deception to taint the judgment. This miscarriage of justice not only denied Emily her rightful place with her family but also reflected systemic failures with at least 80 similar cases slipping through the cracks. The 2012 Final Report from the Council of the Inns of Court COIC Disciplinary Tribunals and Hearings Review Group sought to address these deep seated issues. Under the leadership of Brigadier Tony Faith CBE 85 recommendations were implemented to restore confidence in the administration of justice. Yet despite these reforms the wrong done to Emily remains unrectified leaving her family in a limbo of unfulfilled promises. From the inset this became interesting gathering all the figures and statistics and chasing the money to see whom the villain of the piece was. If you have not read the first book in this series it is a must to help you understand what it piled against you to
