If you buy an NFT, do you own anything? Critics say no. Then why are people spending so much money to own them, to the tune of 27 billion in 2021? And why are big businesses and venture capital firms investing hundreds of millions to develop NFTs for people's use in the metaverse, a purely imaginary world? In *Creators Take Control*, Edward Lee offers a compelling new theory he calls Tokenism that answers these perplexing questions. Using vivid examples, Lee lucidly explains how NFTs operate and how they fundamentally change our understanding of ownership. Tokenism is an artistic, cultural, and technological movement that creates value in a new kind of ownership of a new type of property symbolized by a virtual token through a process of technological abstraction and artificial scarcity effectuated by NFTs. Ownership becomes virtual. What Cubism did in radically changing the twentieth-century perspective of creating and viewing art through cubes, Tokenism does today in altering our perspective of owning art and other things through tokens. Both movements radically reimagine what's possible. Creators and businesses have seized upon this profound transformation. In a short time, they have developed a new market for digital art, important new rights for creators, innovative business models based on decentralized collaboration, and a new type of interactive ownership that enables identity, community, and patronage through NFTs. These innovations are just the start of revolutionary changes to society. Lee shows how NFTs create a new form of decentralized intellectual property or De IP. Comparable to the movement to decentralized finance (DeFi), De IP empowers creators to take control of their artistic productions and livelihood. Lee's intellectual tour de force is filled with practical insights and hope for fostering creativity and a Virtual Renaissance for the ages. *Essentials of Marketing Analytics, 1e* Joseph F. Can't Knock the Hustle Matt Sullivan, 2021-06-22 Brilliantly audacious, written with the profundity of a sage baller and the acuity of a seasoned journalist, Kiese Laymon's New York Times bestselling author of *Heavy*. An award-winning journalist's behind-the-scenes account from the epicenter of sports, social justice, and coronavirus, *Can't Knock the Hustle* is a lasting chronicle of the historic 2019-2020 NBA season by way of the notorious Brooklyn Nets and basketball's renaissance as a cultural force beyond the game. The Nets were already the most intriguing startup in the NBA, a team of influencers, entrepreneurs, and activists starring the controversial Kevin Durant and Kyrie Irving. But this dynasty in the making got disrupted by the unforeseen. One tweet launched an international scandal pitting the team's Chinese owner and the league's commissioner against its players and LeBron James. The sudden death of Kobe Bryant after making his final public appearance in Brooklyn sent shockwaves through a turbulent season. Then came the unimaginable: A global pandemic and a new civil rights movement put basketball's trend-setting status to the ultimate test as business and culture followed the lead of the NBA and its empowered stars. No team intersected with the extremes of 2020 quite like the Brooklyn Nets, and Matt Sullivan had a courtside view. *Can't Knock the Hustle* crosses from on the court where underdogs confront A-listers like Jay-Z and James Harden to off the court as players march through the streets of Brooklyn, provoke Donald Trump at the White House, and boycott the NBA's bubble experiment in Disney World. Hundreds of interviews with Hall of Famers, All-Stars, executives, coaches, and power brokers across the world provide a backdrop of the NBA's impact on social media, race, politics, health, fashion, fame, and fandom for a portrait of a time when sports brought us back together again.
