Critical Success Factors Driving Customer Adoption of Cloud Gaming Platforms Timo Grünzinger, 2024-03-04 Master's Thesis from the year 2021 in the subject Business economics Information Management grade 19/20 language English abstract This work project aims to identify factors that have an impact on customer adoption of cloud gaming platforms. Based on the Unified Theory of Acceptance and Use of Technology combined with the concept of Flow as well as further amendments relevant for hedonic information systems, a structural equation model was developed and empirically tested on a convenience sample of gaming community members. Besides the significance of price value on user acceptance, the empirical results suggest that social influence together with a flow state associated with the hedonic motivation of cloud gaming play a critical role in customer adoption.

Managing Innovation Joe Tidd, John R. Bessant, 2024-11-05 The new edition of the bestselling textbook on Innovation Management provides a strong knowledge base and a creative and entrepreneurial management mindset. Acclaimed for its practical evidence-based tools and resources, Managing Innovation provides the knowledge base required to manage innovation technology and new product development. With an integrated process approach, this classic textbook helps students understand and develop the unique skill set required to manage innovation and innovation processes in the commercial, public and social sectors.
