

Walking for weight loss

Do not underestimate walking as a means of losing weight only because during training, sweat does not flow and the muscles do not ache. In fact, it is very effective.

Any kind of walking is always energy expenditure, which invariably leads to losing weight. The only question is how many calories are burned in the process of such a sport. This indicator depends on such factors as initial weight and speed.

For 1 kg of weight for an hour is spent:

in the average tempo (3-4 km / h) - 3.2 kcal;

at a fast rate (6-7 km / h) - 4.5 kcal;

at a very fast pace, almost running (8-9 km / h) - 10 kcal.

In order not to make complex calculations yourself, you can use the following table:

Cross-domain and cross-institutional linkage, big data, artificial intelligence, and robotics can all help to improve research and care, but they also pose new challenges to all those involved. This book presents the joint proceedings of the GMDS German Medical Data Sciences and TMF its Technology Methodology and Infrastructure platform, held entirely online from 26-30 September 2021 as a result of restrictions due to the Coronavirus pandemic. This joint event addresses the opportunities and risks of using new information technologies in medicine, as well as the resulting requirements for data protection, data security, and ethics. Methodological challenges associated with the preparation, evaluation, and interpretation of data volumes, which constantly increase in type and scope in the course of digitization, are also examined in detail. The 25 papers included here are divided into 5 sections: editorials, artificial intelligence and clinical decision support systems, CDSS data integration and interoperability, human-computer interaction and software systems and frameworks, and the topics covered are very diverse, ranging from disease detection using retinal imaging through data management and sharing to interactive web applications. Providing an overview of regional research and developments in the field, the book will be of interest to all those working in health technology and medical informatics, researchers and practitioners alike. **Bodybuilding 201** Robert Wolff, 2003 Walks you step by step through the exercises, tips, workouts, and information you need. *Walking For Fitness* Nina Barough, 2016-12-06 Discover the benefits of power walking and take simple steps to boost your energy levels with Walking for Fitness.
