Facebook Nation Newton Lee, 2012-09-15

President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook. U.S. Chief Information Officer Steven VanRoekel said that America has become a Facebook nation that demands increased transparency and interactivity from the federal government. Facebook as a nation in 2012 would be the third largest country in the world with over 900 million citizens, after China and India. This book portrays the social media ecosystem as a world of increasing Total Information Awareness, which is essentially a civilian version of the controversial Total Information Awareness program unveiled in 2002 by the Defense Advanced Research Projects Agency (DARPA) at the U.S. Department of Defense. Back in the 60s, DARPA initiated and funded the research and development of Advanced Research Projects Agency Network (ARPANET) that went online in 1969. The success of ARPANET gave rise to the global commercial Internet in the 90s and the new generation of Fortune 500 companies today including Amazon.com, Google, eBay and Yahoo. As if life comes full circle in the 21st century, private businesses and the ubiquity of social networks such as Facebook, Google, Twitter and YouTube are creating the technologies and infrastructures necessary for the DARPA proposed Total Information Awareness program. WikiLeaks founder Julian Assange called Facebook the most appalling spying machine that has ever been invented. Indeed

military and civilian technologies have interwoven into every fabric of our society as Facebook co founder and CEO Mark Zuckerberg said We exist at the intersection of technology and social issues This book offers discourse and practical advice on the privacy issue in the age of big data the rise of Facebook nation and Total Information Awareness Opening with President Ronald Reagan s 1984 National Security Decision Directive and ending with George Orwell s novel 1984 the author takes us on a roller coaster ride through Facebook s botched IPO Carrier IQ Kony 2012 SOPA PIPA blackout cyber bullying crime fighting and a host of other timely issues facing our Facebook nation Social media strategists information architects social scientists policymakers and academic scholars in the Program in Science Technology and Society STS will find this book a valuable asset

Facebook for the 2nd American Revolution Michael Mathiesen,2015-05-11 This book is intended to kick off the 2nd American Revolution by creating a Facebook Type of Social Media web site wherein every concerned American citizen sick and tired of the two party monopoly of ideas and wanting to try something completely different REAL DEMOCRACY unfettered and uncensored or controlled by any individual party or corporation With a successful Facebook style experience where everyone can exchange political ideas and support we can create a new kind of government fit for the modern era abandoning the one we have now based on horse and buggy technology created for us by people who were perplexed by problems of a much simpler age and not even close to the perplexity of the problems that we face today such as Global Warming Terrorism at our doorstep over spending government spying on us unfair and unscrupulous tax laws lobbyists bribing our politicians and thus robbing us of our freedoms I could go on and on This book explains why it is time to PUT REAL SOLUTIONS ON THE NATIONAL BALLOT for the electorate to decide not the crooks in Washington who know how to wear the best suits and ties and not much else The 2nd American Revolution will amend the plan put forth by our founding fathers who gave us the beginnings of a democracy but who were too timid to give us the WHOLE ENCHILADA They couldn t even dream about a future where people can chat with one another all over the world exchanging ideas money even transporting goods and services to each other without any help from any other sources We show how a Facebook type of electronic meeting place can replace the old system of sending folks to Congress to do the bidding of the people and get rid of the middlemen people who get it wrong most of the time people who have their own self interest at heart people who actually work against the common good more often than not people who talk as though they believe in democracy but who work to kill it every day behind closed doors and in smoke filled rooms We are now 20 trillion dollars in debt and headed in a mad race to the bottom So one has to wonder where all the money has gone

When Congress refuses to balance the budget someone else is going to have to do it When Congress refuses to squash the terrorists as easily as we could and should if we were properly lead If Congress refuses to reform the tax codes someone else is going to have to do it When Congress refuses to fix the pot holes and or legalize Pot someone else is going to have to do it When Congress refuses to do anything about Climate Change When Congress refuses to do anything about the homeless someone else is left to do it When Congress refuses to do anything about the schools someone else is left to do it When Congress refuses to do anything about all the fires raging all over this country someone else is going to have to do it When Congress refuses to even read the legislation they are creating and exempts themselves from all of the laws they are creating someone else is going to have to do it When Congress sends all of the best jobs overseas someone else is going to have to reverse them When Congress refuses to clean the air that we breathe and the water that we drink and even the food that we eat someone else is going to have to do it When Congress continually raises their salaries and incomes for doing less and less someone else is going to have to control them That someone is you and me brother and sister That someone has to get going on this now before they bring down on us all the worst disaster in all human history the death of our country for sure and possibly even the death of our planet Wake up America This book is your safety net your life preserver Grab a hold of it and pull for your life your country your future may very well depend on it
