**Keep Your Eye on the Game** Michael Ferguson, 2017 This study examines 11 years and 26 370 of Major League Baseball's i.e. MLB game outcomes to test whether distraction through scoreboard watching causes teams to choke under pressure Results indicate that scoreboard watching significantly impacts the probability of winning a game especially in playoff races Specifically teams in a playoff race had a 0.158 lower probability of winning games when the division leader won its game the previous day Consistent with distraction theory the analysis also shows that the distraction effects are 0.224 greater on home teams There is evidence of increased distraction as criticality of games increase When there are fewer than 10 games remaining in a playoff race the impact of a division leader win reduces a team's win probability by 0.243 Changes to league structure reduced win probability by 0.039 for seasons starting in 2012 This involved the addition of a Wild Card team to each league and an increase to the value of winning a division This study helps fill a gap in the literature in relation to research on external factors and their impact on game outcomes If a team can account for factors related to winning a game then it could be possible to gain a competitive advantage over the opposition

The findings also have practical applications MLB teams can take initiatives to eliminate distraction and keep players attention on the task at hand surrounding critical games     *Major League Baseball* Peter Walton,2016-05-29 An innovative in depth system where the MLB playoff teams will be determined via democracy Now there are 15 categories where teams can earn additional points if a player or the team is selected for the first 1 2 awards the 2nd 1 2 awards or as a year end selection Categories include Demolitions Dominant saves Dominant starting pitching Top Defensive Plays Saving the Best for Last and Top Comebacks among others This book includes the current methods as well as details of the new rating system It is informative and a major innovation in determining who will be selected for the playoffs     **Effects of Time-off on Team Performance in the Major League Baseball Postseason** Collin M. Hopkins,2020
