

# **HESI A2 - Reading**

# **Comprehension 100%**

# **VERIFIED ANSWERS**

# **2024/2025**

## **Identifying the Main Idea**

First identify the topic by asking "What is the passage about?" Once this question is answered, then ask "What point is the author making about this topic?" The majority of paragraphs will include information about the main idea. Stop and summaries, and visualize as you read.

### **HESI Hint: Main Ideas**

Main ideas can be found in the beginning, in the middle, or at the end of a paragraph or passage. Always check the introduction and conclusion for the main idea.

### **Topic Sentence**

A sentence that expresses the main idea of the paragraph. Can be stated in one or two sentences, and are often found at the beginning of paragraphs.

### **Identifying Supporting Details**

These are details that the writer uses to give a description, a background, or simply more information to support the main idea. They may be examples, facts, or statistics. Often the author's main idea can be confused with the examples or reasons that support the main idea.

### **Hint: Identifying Supporting Details**

## Reading Comprehension 2025:

**Optimizing Bilingual Development in Typical and Atypical Children: Language Acquisition, Use, and Interventions** Dimitra V. Katsarou, Ifigeneia Dosi, 2025-08-29 Bilingual language development is a complex and dynamic process that shapes how children interact, learn, and participate in society. Understanding the factors that influence bilingual acquisition is essential for supporting both typically developing children and those with developmental differences. Research demonstrates that bilingualism can offer significant cognitive, social, and academic benefits even for children with language-related challenges provided they receive appropriate support. In inclusive and culturally responsive environments, dual language development can enhance identity, promote equity, and facilitate meaningful participation in diverse communities. As such, fostering bilingualism is not only a linguistic endeavor but also a pathway to broader societal inclusion and resilience.

**Optimizing Bilingual Development in Typical and Atypical Children: Language Acquisition, Use, and Interventions** offers a comprehensive exploration of bilingual development across typical and atypical populations. It emphasizes evidence-based educational and clinical practices and provides a unified framework for understanding bilingualism as a dynamic and context-dependent process. Covering topics such as ADHD, morphology, and psychomotor development, this book is an excellent resource for researchers, educators, clinicians, policymakers, and more.

**Dyslexia in Adulthood** Eddy Cavalli, Pascale Colé, Lynne G. Duncan, 2026-02-03 This groundbreaking book provides a comprehensive international perspective on how dyslexia manifests across the lifespan with a rare and valuable focus on adults. Each chapter meticulously examines research on critical aspects of dyslexia relevant to adult populations. The book delivers an in-depth assessment of the dyslexic reader's neurocognitive profile, exploring language processing, memory systems, learning mechanisms, executive functions, and neurobiological foundations. Readers will find evidence-based approaches to screening, diagnosis, and intervention, specifically tailored to adults with dyslexia. The text addresses crucial questions about long-term cognitive risk factors while highlighting how adults with dyslexia develop resilience through effective compensatory strategies. By synthesizing diverse research into a single authoritative resource, this book serves as an essential reference for scholars, students, and professionals worldwide who seek to understand how dyslexia impacts training, education, and employment throughout adulthood.

**Understanding and Using Reading Assessment, K-12**, **Reader Bot** Naomi S. Baron, 2026-01-20 What happens to human reading when AI bots can do it for us? Explosive developments in artificial intelligence have awed everyday users with the technology's ability to draw on computer coding and especially to write. Those AI-generated essays, poems, legal briefs, and responses to requests for information are all visible evidence of large language models at work. What we don't see is the critical prior step before it can write: AI needs to read. While AI's written outcomes are remarkably similar to what a diligent student, lawyer, or researcher might produce, AI doesn't read the way that humans do. Now that AI is proving an adept reader, what happens to our own reading skills and motivations, especially at a time when both voluntary and school reading are

increasingly on the decline We have learned that when we let chatbots write for us there are pros and cons to handing over our virtual pens It's critical that we also think through the consequences of relinquishing reading a deeply human activity to bots What do we stand to gain and lose when we let AI read for us Tracing the intersecting trajectories of AI and reading Reader Bot tackles this vital question revealing why we must be thoughtful about how we welcome AI as reader into our lives

**Natural Language Processing and Chinese Computing** Derek F. Wong, Zhongyu Wei, Muyun Yang, 2024-10-31 The five volume set LNCS 15359 15363 constitutes the refereed proceedings of the 13th National CCF Conference on Natural Language Processing and Chinese Computing NLPCC 2024 held in Hangzhou China during November 2024 The 161 full papers and 33 evaluation workshop papers included in these proceedings were carefully reviewed and selected from 451 submissions They deal with the following areas Fundamentals of NLP Information Extraction and Knowledge Graph Information Retrieval Dialogue Systems and Question Answering Large Language Models and Agents Machine Learning for NLP Machine Translation and Multilinguality Multi modality and Explainability NLP Applications and Text Mining Sentiment Analysis Argumentation Mining and Social Media Summarization and Generation

**Technologies and Innovation** Rafael Valencia-García, Tamara Borodulina, Javier Del Cioppo-Morstadt, Cesar Ernesto Moran-Castro, Néstor Vera-Lucio, 2024-10-25 This book constitutes the refereed proceedings of the 10th International Conference on Technologies and Innovation CITI 2024 held in Guayaquil Ecuador during November 2024 The 15 full papers presented in this volume were carefully reviewed and selected from 38 submissions These papers have been organized under the following topical sections Artificial

intelligence in Agriculture Natural language processing and semantic web Machine learning Software tools *OECD Skills Outlook 2023 Skills for a Resilient Green and Digital Transition* OECD, 2023-11-06 Skills are vital for building resilient economies and societies By helping individuals develop a diverse range of skills and empowering them to apply these skills effectively skills policies play a crucial role in responding to emerging threats such as environmental degradation and harmful applications of technologies used to collect generate and exchange information This edition of the Skills Outlook highlights the importance of supporting individuals in acquiring a wide range of skills at varying levels of proficiency to promote economic and social resilience Additionally the report acknowledges the role of attitudes and dispositions in enabling skills development and effective skills use It also emphasises the need for policy makers to monitor the costs associated with policies aimed at promoting the green and digital transition and how the transition affects inequalities Training opportunities that respond to emerging labour market needs and efforts to facilitate their uptake can promote a just and inclusive green and digital transition In turn education systems that equip young people not only with skills but attitudes to manage change can ensure that the green and digital transition is sustainable in the longer term *Conflict in the Classroom: the Education of Children with Problems* Nicholas James Long, William Charles Morse, Ruth G. Newman, 1971
