Netflix Ideas Customer Service:

The Creative Discipline Nancy K. Napier, Mikael Nilsson, 2008-06-30 Why are some organizations more creative than others? What sets innovative high performing organizations apart? Can creativity and innovation be learned and enhanced? The answer to the last question say creativity experts Nancy Napier and Mikael Nilsson is a resounding yes. And with general consensus that creativity and innovation drive business growth fostering creativity couldn't be more important. In *The Creative Discipline* Napier and Nilsson illustrate six key factors that power creative high achieving organizations and they provide managers with guidelines for incorporating those factors into their own companies. Business people will learn how innovative organizations get superior results from employees not just through disciplined methods of thinking but also through free flowing work spaces and work practices that help supercharge the imagination. Combining research on creative organizations in several sectors this book argues that innovative organizations known for doing things differently and profitably approach creativity and innovation in similar disciplined ways regardless of industry or field. That discipline fosters new ideas solutions and approaches and it ensures that the flow of creativity is constant. *The Creative Discipline* demonstrates that Innovative high performing organizations have three disciplines in common: 1. within discipline mastery, 2. out of discipline thinking, and 3. a disciplined process that leads to innovation. Innovative organizations also have three factors that strengthen the creative disciplines: faces, creative entrepreneurs, leaders, and teams; places, the physical and organizational infrastructure that is reflected in offices, buildings, and location; and traces, elements that act as catalysts for creativity, the culture, networks, and policies that support creative and innovative endeavors. The book explains each factor for creative success in detail. Best Napier and Nilsson show creativity and innovation at work in a range of sectors from sports to software to theater and contemporary circus. They also show how innovative practices in developed countries like the U.S. and Sweden compare to those in developing countries like Vietnam. Companies can learn to innovate and in the process reap benefits like higher sales and profits, greater productivity while regaining a valuable element missing in so many workplaces: fun.

Handbook of Media Branding Gabriele Siegert, Kati Förster, Sylvia M. Chan-Olmsted, Mart Ots, 2015-08-07 This comprehensive handbook critically addresses current issues and achievements in the field of media branding. By discussing media branding from different viewpoints, disciplines and research traditions this book offers fresh perspectives and identifies areas of interest for further research. The authors highlight the peculiarities of this field and reveal links and commonalities with other areas of study within communication science. The chapters address different research areas such as society, content management, audience as well as advertising aspects of media brands. This handbook thus brings together contributions from different areas making it a valuable resource for researchers and experts from industry interested in media branding.

All You Need is a Good Idea! Jay H. Heyman, 2008-08-15 In *All You Need Is a Good Idea* Jay Heyman shows you how to create powerful marketing and advertising ideas that will dramatically increase sales for your business.

Perfect for entrepreneurs and small business owners or operators of any size business for that matter this valuable marketing resource will help any business stand out in the marketplace build bigger market share gain publicity and scare the pants off the competition This book is the perfect guide to creating truly powerful marketing messages **Exploring Management**

John R. Schermerhorn,2011-10-11 The primary goal of this edition of Exploring Management is to help build core management competencies for today's global and more complex workplace including issues related to planning organizing leading and controlling POLC with more hands on type materials such as cases exercises and application Schermerhorn uses a conversational and interactive writing style to master concepts in a bite size and fundamental approach This text presents managerial concepts and theory in a straight forward interesting style with a strong emphasis on application The discussion of theory is framed in a unique engaging and concise way The goal is to promote critical thinking and ability to make sound business decisions using managerial theory Concepts are explored and reinforced by most hands on applications exercises cases and the integration of technology The text also focuses on the most important aspects of the POLC model emphasizing skill building

The Non-Technical Founder Josh MacDonald,2018-04-03 Everyone has an idea that they think is the next big thing The problem is it's probably an app or software idea and most people probably don't know how to code and their record for managing programmers is little to none Even if they do know how to code they're not quite sure how to get their first one thousand customers The Non Technical Founder walks readers through the stages of validating whether their next big thing is good bringing the idea to life and getting those first customers

The Future-Proof Workplace Linda Sharkey,Morag Barrett,2017-02-27 Face the future on the crest of the wave while the rest are pulled under The Future Proof Workplace is a survival guide for the new realities of business The future is no longer some far off destination it is here right now and already changing the way we work Historically the sea changes have advanced humanity and inspired us to reach even further from the Dark Ages to the Age of Enlightenment from agrarian to industrial societies and today is no different But only those who are ready for the changes will come out thriving This book highlights the changes already taking place around us the transition from skills to knowledge the neuroscience approach to leadership and motivation galloping technical advances and more Whether you're a CEO a leader or manager or just trying to survive the chaos this invaluable guide is your wake up call the future is now The new forces emerging must be understood now if your organization is to succeed This book details the transformation every business must make to turn upheaval into opportunity Discover how emerging technologies and neuroscience research are already impacting the way we work Learn how yesterday's biases are being replaced by modern values culture and relationships Consider the heart of your organization and whether it can stand up to the purpose driven paradigm of the future Find new achievement in the new organizational structure and examine models that are already emerging Everyone knows that changes are needed and fast The question is which changes and how The Future Proof Workplace maps the transformation and gives you an itinerary for each step of the way

Intellectual

Property Valuation and Innovation Ruth Taplin,2013-10-15 With the recent global economic crisis attitudes and practices in relation to intellectual property valuation are changing as exemplified by the dichotomy explained in this book which makes it unique While there has been a move towards global harmonisation in terms of valuation of both tangible and intangible assets that are based on innovation there is also a tendency against global harmonisation because of cultural attitudes and practices of different countries This can be seen most acutely in relation to intellectual property valuation in Asia especially East Asia which often differs from the West's perception of valuation The book is written by experts in intellectual property valuation and innovation who are mainly practitioners covering innovators marketers accountants social innovators and business and management academics The breadth and practitioner background of most of the contributors make the material relevant to those involved in valuation economics business management accounting and finance law and maritime insurance This book takes an interdisciplinary approach that cross cuts all the above mentioned disciplines and takes the understanding of intellectual property valuation to a new level

Big Data Analytics: Systems, Algorithms, Applications C.S.R. Prabhu,Aneesh Sreevallabh Chivukula,Aditya Mogadala,Rohit Ghosh,L.M. Jenila Livingston,2019-10-14
