**Decolonizing Transcultural Teacher Education through Participatory Action Research** Jean Kirshner, George Kamberelis, 2021-06-30 This volume describes a Participatory Action Research PAR project involving educators from Belize and the U S to illustrate the critical role of shared dialogue in transnational teacher education First identifying issues which inhibited the success of formerly didactic training delivered to Belizean teachers by U S educators this volume documents the transformational impact of a shift to collaborative training approaches and uses first person accounts from Belizean and U S stakeholders to illustrate their successes Chapters powerfully illustrate that by engaging in Freirean like dialogue and building relationships based on a mutual understanding of the cultural and historical context as well as the identity of educators involved partners are better able to engage in effective transnational pedagogical collaboration Particular attention is paid to the importance of acknowledging the post colonial setting and unique positionality of teachers in Belize This text will benefit researchers academics and educators with an interest in action research and teacher research multicultural education and continued professional development in particular Those interested in teacher training education research and international and comparative education will also benefit from this book

Mogge, Shelly Huggins, Jaye Knutson, Elin E. Lobel, Pamela Segal, 2023-03-14 This book explores a spectrum of literacies relevant to dance physical education and sports It examines conceptions of movement literacies disciplinary literacies and traditional school literacies It includes theory research and instructional practice related to the uses of traditional print multimedia and embodied physical literacies These literacies function independently but are also overlapping and mutually reinforcing in comprehensive instructional planning As movement and activity related fields continue to explore the potential for multiple literacies this book introduces numerous possibilities both conceptual and practical for consideration Pre service and in service teachers in dance and physical education programs will learn how to integrate multiple literacies in curriculum design and teaching Graduate students will examine theoretical premises of movement and disciplinary literacies and become familiar with original research on these topics Teachers school administrators coaches and athletic directors will use the book in order to guide the inclusion of movement and activity

based fields in the disciplinary literacy agenda now common in Pre K through secondary schooling Media rich chapters including photographic video and other graphic images allow students to access concepts through multiple modalities
