Street

Photography Andrew "Fundy" Funderburg,2018-07-15 To Andrew Fundy Funderburg street photography means hitting the streets with a simple camera or even a phone and capturing everyday life To do it well the photographer has to be part of the action part of the moment He or she must be willing to be yelled at and brave enough to pick up that camera and point it at a stranger And when the moment is perfect magic happens the viewer can see into the moment and the soul of the person in the photograph and that split second exposure becomes a slice of history frozen in time In addition to being an artform however street photography has the power to preserve the history of a city or neighborhood and bring its citizens together It has the power to save the story of the time place and people and sometimes even prove the value of a place that is worthy of preservation After all it s not usually the people going to work in giant office buildings that give a place its character it s the bartenders the waiters the street vendors the lifetime residents and even the homeless characters that make a town truly come alive
