## NEW QUESTION TYPES

### Paired Passage 1

Name: \_\_\_\_\_

#### Green Spaces Matter

Did you know that having gardens and parks in our neighborhoods makes everyone healthier and happier? It's true! Green spaces are essential for communities, yet many areas lack these valuable resources.

First, gardens and parks improve our physical health. When people have access to green spaces, they are more likely to exercise outdoors. Walking, running, or playing in natural areas helps keep our bodies strong. Gardens also provide fresh fruits and vegetables, which are important for a nutritious diet. Many community gardens donate extra produce to local food banks, helping families who cannot afford healthy food.

Additionally, green spaces benefit our mental health. Studies show that spending just 30 minutes in nature reduces stress and anxiety. Students who have access to green areas concentrate better in school and perform better on tests. Even looking at plants through a window can improve someone's mood and focus!

Gardens and parks also help our environment. Plants absorb harmful gases and produce oxygen, making our air cleaner. They provide homes for important creatures like birds and beneficial insects. Gardens can reduce flooding by absorbing rainwater that would otherwise overflow storm drains.

Unfortunately, many neighborhoods, especially in urban areas, lack sufficient green spaces. Some communities have started turning vacant lots into gardens. Schools are creating outdoor classrooms and vegetable gardens. These green spaces help students learn valuable skills.

...where they live.
