Studying Organizations Using Critical Realism A Practical Guide:

Studying Organizations Using Critical Realism Paul K. Edwards, Joe O'Mahoney, Steve Vincent, 2014-03-20 The development of Critical Realism CR as a philosophy of science is generally attributed to a series of books by Roy Bhaskar It has proven to be influential not least because it has an affinity with many people's views about the way the world fits together both within and outside of academia Whilst there are numerous contributions outlining CR theory in sociological and organizational research as well as general texts about realist ontology work delineating the consequences of these views for research practice is an emerging area of interest This book aims to fill a significant gap in the literature by providing a practical guide to the application of CR in empirical research projects More specifically it explores the methodological consequences of committing to a CR ontology the assumptions that researchers from this tradition make about the nature of reality These assumptions are important because ontological commitments which relate what we believe exists often affect our epistemological concerns which relate to our beliefs about how whatever exists can be studied and known Thus for a researcher ontology and epistemology are important because they have consequences for the possibilities and limits of the research methods techniques and analyses that they employ The book explains what CR is and outlines the logic of research design In a series of chapters on major social science research methods purpose written by experts in the relevant technique the book contains extended illustration of how to conduct inquiry using CR Studying Organizations Using Critical Realism Paul K. Edwards, Joe O'Mahoney, Steve Vincent, 2014 The book provides a practical guide to the application of Critical Realism CR an increasingly popular philosophy of social science in empirical research projects Each purpose written chapter reviews major social science research methods and contains extended illustration of how to conduct inquiry using CR Studying Organizations Using Critical Realism Paul K. Edwards, Joe O'Mahoney, Steve Vincent, 2014 The book provides a practical guide to the application of critical realism CR an increasingly popular philosophy of social science in empirical research projects Each purpose written chapter reviews major social science research methods and contains extended illustration of how to conduct inquiry using CR **Research Handbook on the Sociology of Organizations** Godwyn, Mary, 2022-06-10 With original contributions from leading experts in the field this cutting edge Research Handbook combines theoretical advancement with the newest empirical research to explore the sociology of organizations While including the traditional study of formal corporate business organizations the Handbook also explores more transitory informal grassroots organizations such as NGOs and artist communities Researching Leadership-As-Practice Vasilisa Takoeva, 2021-04-19 One current challenge of conducting research from the leadership as practice perspective is a practical one how to capture and analyse the elusive practice of leadership within the web of mundane organising processes Although a number of researchers have attempted to address the issue there is not yet a definitive how to guide to making sense of the empirical manifestations of leadership practices The book responds directly to this challenge and offers a theoretical framework and

practical guidance to capturing identifying and analysing evidence of leadership practice emergence and provides implications of this approach for leadership academics and practitioners The developed framework enables a method for understanding these leadership instances as they are enacted by individuals within and against the evolving activities of their day to day work The framework is underpinned by cultural historical activity theory and critical realism and it conceptualises leadership practice by placing agents actions and interactions within the context of their relationships objectives experiences material and non material artefacts and wider organising processes and organisational structures work that has not yet been undertaken in the field It offers a strong theoretical foundation for further development of our understanding of leadership as practice providing a methodological guidance for undertaking leadership as practice research and enables a discussion on the variety of underlying processes and elements as they emerge from empirical observations It will be of value to researchers academics professionals and students in the fields of business and management with a particular interest in management theory organisational studies and leadership research

Safeguarding and Mental Health Support in Contemporary Childhood Wendy Sims-Schouten,2020-11-24
Approaches regarding safeguarding and mental health in childhood have been in constant flux Framed within a critical realist ontology this book provides insight into causal factors individual material institutional and social structures that impact on the continued legacy of the deserving undeserving paradigm Drawing on historical data from children taken into care by the Waifs and Strays Society 1881 1918 and contemporary data from interviews with young care leavers and safeguarding practitioners professionals this book shows how at present and in the past certain children and families miss ed out on support and interventions due to complex needs financial cuts and ever changing thresholds It is the group of children referred to as victims a term used for the most disadvantaged children who have spent time in care have complex mental health needs and have had the most damaging pre care family experiences who are the focus of this book This book shows that in an attempt to provide services where there are ever increasing thresholds for access and cuts to resources a resurgence of the deserving undeserving paradigm reflects a contemporary justification regarding who is entitled to help and who is not This book will be of interest to all scholars and students of social work social policy childhood studies sociology and education policy

Wanderlust to wonderland? Andresen, Maike ,Anger, Silke ,Al Ariss, Akram,Barzantny, Cordula,Brücker, Herbert,Dickmann, Michael,Mäkelä, Liisa,Muhr, Sara Louise,Saalfeld, Thomas ,Sutari, Vesa,Zølner, Mette,2023-03-13 Expatriation has been a topic of much research recently The important role expatriates play in the internationalisation of an organisation and the resultant effects of such a work experience on the expatriates themselves have

fuelled the interest in this domain. This edited volume serves to provide fresh and timely insights into four areas covering the individual over the organisational to the macro level. First the career paths of the expatriates which not only garners them the career capital they may be able to utilise later in their career but also the impacts of such an experience on their longer term career success are in focus. The second block concerns the expatriation phase itself. A critical look is taken into the expatriates identity and how it changes over time. Moreover it discusses factors influencing the expatriates well being, embeddedness and socio cultural integration during their time abroad. Third some key global mobility management challenges that organisations face when managing expatriation are introduced such as flexible language management and how to become an international employer. Finally insights are provided into the role of the host country policies more specifically hostile environment and migration policies on expatriate attitudes and behaviour which has received less attention in previous research. All four areas are finally brought together to present a rich overview of future research questions that shall stimulate researchers and practitioners in their further deliberations. The chapters are based on selected results from the respective research subprojects of the Early Stage Researchers of the Horizon 2020 Global Mobility of Employees GLOMO project. This project was funded under the European Union's Research and Innovation Programme H2020 in the framework of the Marie Skłodowska Curie Grant Agreement No 765355. *Annual Review of Comparative and International Education 2021* Alexander W. Wiseman, 2022-07-19. The Annual Review of Comparative and International Education 2021 Part B begins with several chapters exploring conceptual and methodological developments in comparative and international education followed by studies exploring research to practice and new developments in comparative and international education.

Handbuch poststrukturalistische Perspektiven auf soziale Bewegungen Judith Vey, Johanna Leinius, Ingmar Hagemann, 2019. Das Handbuch stellt erstmals im deutschsprachigen und internationalen Raum systematisch und vergleichend dar wie soziale Bewegungen aus einer poststrukturalistischen Perspektive analysiert werden können. Die Beiträge stellen verschiedene Ansätze vor und zeigen jeweils anhand eines Beispiels aus der Forschungspraxis auf wie dieser Ansatz für die Analyse sozialer Bewegungen genutzt werden kann. Durch die Anwendung alternativer Methoden die enge Verknüpfung von Theorie und Praxis und eine gesellschaftstheoretische Perspektive werden auf diese Weise neue Einsichten in den Forschungsgegenstand soziale Bewegungen möglich. Das Handbuch ist Teil der Arbeit des Arbeitskreises Poststrukturalistische Perspektiven auf soziale Bewegungen des Instituts für Protest und Bewegungsforschung ipb Berlin.

This international and interdisciplinary collection gathers

stories from researchers and research students about their methodological encounters with critical realism Whether the contributors are experienced or novice researchers they are predominantly new to critical realism For various reasons as the contributors detail they have all been drawn to critical realism It is well known that critical realism can be bewildering and even overwhelming to newcomers especially to those unfamiliar with language of and without a grounding in philosophy While there are now numerous and important introductory and applied critical realist texts that make critical realism more accessible to a broader audience stories from newcomers have been absent especially as part of a single collection The significance and uniqueness of this collection lies in its documentation of first hand reflective insights on the practical use and implementation of critical realism The contributors feature critical realist inspired research journeys in Australia England Scotland Belgium Sweden and Spain The hope of this book is that the stories and accounts presented in it will inspire or at least sufficiently arouse the curiosity of others to explore critical realist possibilities which we believe offer enormous value to serious researchers across and within all disciplines and subjects who are interested in rigorous intellectual work with a socially progressive purpose
