On Happiness Camilla Nelson,Deborah Pike,Georgina Ledvinka,2015 What is happiness and how does the pursuit of happiness shape our lives Happiness appears to be a simple emotion individual and pleasurable yet the problems associated with happiness in politics economics and philosophy suggest that it is perhaps more complex and paradoxical than we first thought This eclectic collection of essays interrogates the common sense understanding of happiness in the West and examines the strategies devised to obtain it Without disposing of the concept altogether the book rediscovers the latent aspects of this pervasive and elusive phenomenon Ultimately it concludes that our current notions of happiness may in fact be the very cause of our discontent On Happiness offers readers a spectrum of critical reflections and rethinks of this ubiquitous cultural obsession Librarians ebook available on ProQuest and EBSCO Subject Philosophy Sociology Popular Culture

me your best friend your family Even your boss Happiness is such a lucrative incentive that it motivates people to do the craziest things swimming with sharks jumping from airplanes dieting training and even working from 9 to 5 for their entire life Since happiness plays such an important part in our life we ought to know what it is and where we can easily find it right Wrong This is a challenging task resulting in years of wrong decisions and frustrating activities You set yourself a goal to become a lawyer and earn a lot of money You invest hundreds of hours into studying and practice spend thousands of dollars on education until you finally get into court and realize that this isn't what you wanted at all The problem is that we live in a society which is lacking introspection and self knowledge In most cases our parents teachers and friends tell us what is right for us They fool us into thinking that we have to strive for certain things in order to be happy Because we never question authority and we comply gently with societal pressure we end up with a major depression at the age of 30 So the next time you find yourself doing things other people have told you to do stop and think for a second if this is really what you want to do
