S - Symptom

Mr. Smith has been more than慷慨 for the benefit of other members. Staffed interventions are opened by the client and many are used, as well as group facilitated interventions.

Client reported feeling depressed, but not suicidal, when this letter was written and stated "I didn't know if I was well with the public or not." He stated, "I don't believe in treatment, but I'll give it a try as long as I have help with the coverage." He reported trying several different types of coverage, but stated "I feel better being on Suboxone, it makes the coverage more manageable." He reported residual pain from his back condition.

O - Objective

Observations: client verbalizes depression, supporting the subjective statement. This may include the physical appearance of the patient (e.g., pale, slumped posture, slumped shoulders, head down, etc.), as well as complaints (e.g., pain, fatigue, etc.). Note that the patient is currently taking or being prescribed.

Client was withdrawn and guarded. He participated in group therapy and engaged in the group process with the help of the counselor. He was able to identify his "triggers," such as "feeling the same from my accident" and "feeling around other people who are staff." Withdrawn symptoms have resolved. However, he still has strong coverage despite improvement since starting Suboxone.

A - Assessment

The content above is an clinician's assessment of the situation, the services, and the patient's condition, prognosis, response to interventions, and progress (or lack thereof) toward plan goals/objectives. This may also include the diagnosis with a list of symptoms or risk or other relevant clinical details.

Client was good-moderate. Overall, Mr. Doe appears engaged in SUD treatment at this time. He still has strong coverage and is fearful of relapse, but trying to be more outgoing in Suboxone. Use of higher doses is necessary - will coordinate with Suboxone prescription. He continues to report depressive and pain symptoms and would benefit from the other medical and psychiatric health follow-up, respectively.

P - Plan

The three listed plans are serving the need, based on the clinical information required and the assessment.

Substance Use

- Client will continue DOB and MAT as prescribed. He agreed to attend at least 2 Medication Assays/week meeting at least 2 per week. Continue Suboxone and coordinating with other care providers.
- Counselor will refer the client to case management for help with housing and employment. Admitted.
- Client ongoing depressive symptoms, will refer for medical health assessment.
