Passions of the Earth in Human Existence,

Creativity, and Literature Anna-Teresa Tymieniecka, 2012-12-06 Literature reveals that the hidden strings of the human passional soul are the creative source of the specifically human existence Continuing the inquiry into the elemental passions of the soul and the Human Creative Soul pursued in several previous volumes of this series the present volume focuses on the passions of the earth bringing to light some of the primogenital existential threads of the innermost bonds of the Human Condition and mother earth In Tymieniecka's words the studies purpose to unravel the essential bond between the living human being and the earth a bond that lies at the heart of our existence A heightened awareness of this bond should enlighten our situation and help us find our existential bearings Second Thoughts about the Second Coming Joe

Reeves, 2011-10 In the book Second Thoughts About The Second Coming teacher author and systems engineer Joe Reeves deals with many aspects of the idea of Jesus second coming that are seldom considered by modern Christians but he does so from the standpoint of asking several critical questions The basic questions he asks and answers in this book are can a book of scripture at some later date come to mean what it never meant Can a scriptural text at a later date come to mean what the author obviously did not intend it to mean to those of his original envisioned recipients to whom he wrote and a meaning that the first recipients simply would not have understood Then based on those answers he asks and answers several questions about Jesus resurrection His resurrected nature and His ascension Then based on the biblical answers to those questions asks and answers the question about whether or not Jesus and the biblical writers predicted a second coming Using those questions and the question of specifically what would those first century Christians have understood about what modern interpreters call Jesus second coming as the basis for study Joe uses his training and experience in systems thinking Bible history cultural anthropology and logic and philosophical realism to formulate a system of thinking that challenges many of the modern assumptions upon which the four most common doctrines about Jesus second coming are based For the person who wishes to learn more about how the first Christians would have used and understood the writings they received about Jesus and His life after His resurrection this book is a must read The Fiction of Walker Percy John Edward Hardy, 1987

Hardy's study is concerned only with Percy's fiction rather than his life thought or his essays He covers all six of Percy's novels from The Moviegoer 1961 to The Thanatos Syndrome 1987 and treats them only as fiction rather than as philosophical disquisitions or religious treatises Hardy presents a close reading of each novel focusing on the internal artistic consistency of the works in regard to their subgenres adopted conventions narrative focus and reader text interactions He reveals Percy as a judicious and knowledgeable practitioner in control of his medium ISBN 0 252 01387 5 24 95
