*Strategic Retail Management and Brand Management* Doris Berger-Grabner, 2021-10-25 The retail industry and associated business models have gone through a significant phase of disruption. The rapid emergence of new technologies, digital business models, and the evolution of social media platforms as a new sales channel continue to influence the sector. Key contextual or external trends will affect and shape the retail landscape in the years to come. Therefore, it seems important to prepare for this situation and be ready with a head start in terms of knowledge. This textbook provides its readers basic knowledge about the national and international retail sector and gives important insights into trends and developments. It deals with key trends in particular new patterns of personal consumption, evolving geopolitical dynamics, technological advancements, and structural industry shifts. Moreover, it explains why it is so important that retailers use these trends to adapt their retail strategies and tactics, create strong brands, and come up with innovative new ways of doing business. Today we are living in a challenging time for retail. This textbook tries to give insights and explanations to better understand these challenges and provide managerial implications.

**An Introduction to Operations Management** Ajay Das, 2015-12-22 An Introduction to Operations Management: The Joy of Operations covers the core topics of operations management, including product and service design, processes, capacity planning, forecasting, inventory, quality, supply chain management, and project management. Das provides a clear, connected, and current view of operations management and how it relates to a firm's strategic goals. Students will benefit from the real-world scenarios that foster an understanding of operations management tasks. Without relying heavily on statistics and mathematical derivations, the book offers applied models and a simple, predictable chapter format to make it easy to navigate. Students of introductory operations management courses will love this practical textbook. A companion website features an instructor's manual with test questions as well as additional exercises and examples for in-class use.

Buy Now Emily West, 2022-02-22 How Amazon combined branding and relationship marketing with massive distribution infrastructure to become the ultimate service brand in the digital economy. Amazon is ubiquitous in our daily lives: we stream movies and television on Amazon Prime Video, converse with Alexa, receive messages on our smartphone about the progress of our latest orders. In Buy Now, Emily West examines Amazon's consumer-facing services to investigate how Amazon as a brand grew so quickly and inserted itself into so many aspects of our lives, even as it faded into the background, becoming a sort of infrastructure that can be taken for granted. Amazon promotes the comfort and care of its customers but not its workers to become the ultimate service brand in the digital economy. West shows how Amazon has cultivated personalized, intimate relationships with consumers that normalize its outsized influence on our selves and our communities. She describes the brand's focus on speedy and seamless e-commerce delivery, represented in the materiality of the branded brown box, the positioning of its book retailing, media streaming, and smart speakers as services rather than sales, and the brand's image control strategies. West considers why pushback against Amazon's ubiquity and

market power has come mainly from among Amazon's workers rather than its customers or competitors arguing that Amazon's brand logic fragments consumers as a political bloc West's innovative account the first to examine Amazon from a critical media studies perspective offers a cautionary cultural study of bigness in today's economy

**A Fashion Retailer's Guide to Thriving in Turbulent Times** Ghalia Boustani, Daniela Leonini, 2022-12-01 By raising questions and providing scenarios for success this book embraces fashion brand development in current turbulent retail environments A brand must have an essence it needs to respect a philosophy abide by values and follow clear processes A brand's success and sustainability follow specific rules nonetheless for fashion brands But do fashion brand management rules apply in today's turbulent times Acknowledging and going beyond branding theory this book challenges knowledge and practices that have been guiding fashion retail brands for many years Co written by an academic researcher and a retail consultant with 30 years of experience this practical guide offers not a process that fashion brands must follow but potential avenues for survival in today's retail market and facing today's customers Professionals and students of fashion retailing and branding will appreciate the detailed case studies that illustrate revisited concepts and thought provoking suggestions on how to make decisions for an uncertain future
