Socioscientific Issues Focused Teacher Education Bahadir Namdar,Engin Karahan,2024-03-30 This book explores place based pedagogies in the context of socioscientific issues in Turkey. From local and global contexts it delves into research based learning activities for science teacher educators offering insights to educators worldwide. The book aims to empower teachers to provide students with learning experiences centered on local socioscientific issues essential for developing scientifically literate citizens. Each chapter showcases effective practices focusing on local topics like gold mining, nuclear power plants and river pollution. By incorporating socioscientific elements into science lessons, teachers are encouraged to foster students' responsibility, values, argumentation, critical thinking, and awareness. Emphasizing the crucial components of place basedness and relevancy of SSI learning environments, students are guided towards more sophisticated ways of conceptualizing and resolving SSI. The intended audience includes science teacher educators, researchers, and educators devoted to engaging students in meaningful socioscientific learning experiences.
