Focus On: 100 Most Popular American Agnostics Wikipedia contributors, **Fantastic Planets, Forbidden Zones, and Lost Continents** Douglas Brode,2015-10-30 Whether you judge by box office receipts industry awards or critical accolades science fiction films are the most popular movies now being produced and distributed around the world Nor is this phenomenon new Sci fi filmmakers

and audiences have been exploring fantastic planets forbidden zones and lost continents ever since George M. Li's 1902 film *A Trip to the Moon*. In this highly entertaining and knowledgeable book film historian and pop culture expert Douglas Brode picks the one hundred greatest sci-fi films of all time. Brode's list ranges from today's blockbusters to forgotten gems with surprises for even the most informed fans and scholars. He presents the movies in chronological order, which effectively makes this book a concise history of the sci-fi film genre. A striking and in many cases rare photograph accompanies each entry for which Brode provides a numerical rating, key credits and cast members, brief plot summary, background on the film's creation, elements of the moviemaking process, analysis of the major themes and trivia. He also includes fun outtakes, including his top ten lists of Fifties sci-fi movies, cult sci-fi, least necessary movie remakes, and so bad they're great classics, as well as the ten worst sci-fi movies, those highly ambitious films that promised much and delivered nil. So climb aboard spaceship Brode and journey to strange new worlds from *Metropolis* 1927 to *Guardians of the Galaxy* 2014. [Contemporary Masculinities in Fiction, Film and Television](#) Brian Baker, 2016-07-28 While masculinity has been an increasingly visible field of study within several disciplines (sociology, literary studies, cultural studies, film and TV) over the last two decades, it is surprising that analysis of contemporary representations of the first part of the century has yet to emerge. Professor Brian Baker, evolving from his previous work *Masculinities in Fiction and Film: Representing Men in Popular Genres 1945-2000*, intervenes to rectify the scholarship in the field to produce a wide-ranging, readable text that deals with films and other texts produced since the year 2000. Focusing on representations of masculinity in cinema, popular fiction and television from the period 2000-2010, he argues that dominant forms of masculinity in Britain and the United States have become increasingly informed by anxiety, trauma and loss, and this has resulted in both narratives that reflect that trauma and others which attempt to return to a more complete and heroic form of masculinity. While focusing on a range of popular genres such as Bond films, war movies, science fiction and the Gothic, the work places close analyses of individual films and texts in their cultural and historical contexts, arguing for the importance of these popular fictions in diagnosing how contemporary Britain and the United States understand themselves and their changing role in the world through the representation of men. Fully recognising the issues of race, ethnicity, class, sexuality and age, Baker draws upon current work in mobility studies and in the study of masculinities to produce the first book-length comparative study of masculinity in popular culture of the first decade of the twenty-first century. [Popular Cinema as Political Theory](#) J. Nelson, 2013-12-05 The book presents cinematic case studies in political realism versus political idealism, demonstrating methods of viewing popular cinema as political theory. The book appreciates political myth making in popular genres as especially practical and accessible theorizing about politics.

Imperiled Whiteness Penelope Ingram, 2023-06-23 In *Imperiled Whiteness*, Penelope Ingram examines the role played by media in the resurgence of white nationalism and neo-Nazi movements in the Obama to Trump era. As politicians on the right stoked anxieties about whites losing ground and being left behind, media platforms turned whiteness into a commodity.

that was packaged and disseminated to a white populace Reading popular film and television franchises Planet of the Apes Star Trek and The Walking Dead through political flashpoints such as debates over immigration reform gun control and Black Lives Matter protests Ingram reveals how media cultivated feelings of white vulnerability and loss among white consumers By exploring the convergence of entertainment news and social media in a digital networked environment Ingram demonstrates how media's renewed attention to imperiled whiteness enabled and sanctioned the return of overt white supremacy exhibited by alt right groups in the Unite the Right rally in Charlottesville in 2017 and the Capitol riots in 2021
