Social Media Marketing for Nerds Guide Book: Facebook Marketing, Instagram, Linkedin, Youtube, Tiktok Matt Kingsley, 2025-12-16 Imagine treating social media like a science experiment instead of a slot machine This book shows exactly how to do that Social Media Marketing for Nerds Guide Book turns follower counts view spikes and going viral into something you can actually measure test and repeat It is built for data minded creators business owners and side hustlers who would rather open a spreadsheet than trust the vibes Inside you will learn How real people broke genuine social media world records and which of their tactics scale down to normal sized accounts Why some posts explode most liked most retweeted most viewed while others quietly die and how to reverse engineer the difference How platforms like YouTube TikTok Instagram and X really reward content using metrics you can track and improve How to design your own mini records in your niche launches challenges and campaigns where the numbers actually matter for sales and clients Practical systems for testing hooks formats and posting schedules so you can stop guessing and start iterating like an engineer If you like clear frameworks real numbers and step by step experiments more than vague post consistently advice this is your playbook Turn your inner nerd loose on the algorithms and build a social presence that wins on purpose instead of by accident

Performance and Human-Animal Entanglements Anna Wieczorkiewicz, Sylwia Siedlecka, 2026-02-12 The volume explores how nonhuman animal lives are entangled with human interests conflicts and desires highlighting the role of performance in these interactions Drawing on diverse case studies it unfolds across four thematic sections Training Animals Show Machines Artistic Experiments and Political Conflicts The book benefits readers by sharpening ethical and critical awareness of how animals are entangled in human culture from circuses and museums to art games and social media Its key features are a strongly comparative interdisciplinary approach and a focus on less studied regions and practices It delivers these benefits through carefully structured thematic sections and rich case studies that reveal hidden mechanisms of representation exploitation and interspecies exchange The book can be read as a coherent whole tracing different dimensions of human animal entanglements but each chapter also functions as a self contained case study The book is aimed at scholars students and activists in cultural and animal studies performance and media studies and related fields as well as anyone interested in ethics and human animal relations

Conspiracy Theories in International Relations Katarzyna Gruszko, Tomasz Gajewski, 2026-01-22 The book maps the impact of conspiracy theories at the international political level It shows how a conspiracy theory travels from the sender through communication channels to the receiver influencing the processes of construction and deconstruction of the interpretation of the surrounding reality It therefore serves as an instrument of information warfare to create international advantage generate profits or achieve ideological goals The book presents academic reflection on a socially important problem conspiracy theories their patterns of dissemination and their impact on identity formation This book is of key interest to scholars and students of conspiracy theories global governance global
