**Domestic Extremist** Peachy Keenan,2023-06-06 Spot on often satirical always insightful contributing editor of The American Mind and mother of a brood Peachy Keenan argues that the only way we can save our families ourselves and the world even California is by embracing our inner domestic extremists and sweeping failed notions of third wave feminism and identity politics nonsense into the garbage can of history In This House We Believe Parents Are the Bosses of Their Kids Babies Are Good More Babies Are Better Two Sexes Are Plenty Your Career Is Overrated Feminism Is How the Unpopular and Undateable Cope with Life Mainstream American Culture Destroys Families We Are Going to Win We re in a culture war and Peachy Keenan is not taking prisoners This raucous new book is her rallying cry for normal people stuck in the foxholes and appalled by the status quo Mothers and fathers regular American families men and women can win this battle together But a lot of ground has been lost For decades we stood around and watched as feminists and progressives steamrolled through our institutions those formerly robust now comically inept pillars of civilization like our government our schools and crucially our families With matchless insight and devastating humor Peachy Keenan makes the case for domestic extremism turning away from the diseased offerings of the elites the media Hollywood your child s school and Big Tech and embracing a more human way of life The life changing magic of domestic extremism will spark joy and help you build a legacy that will enrich the lives of your many descendants **Restoring the Promise** Richard K.

Vedder,2019-05-01 Higher education in America is in crisis Costs are too high learning is too little and the payoff to students and society is increasingly problematic In Restoring the Promise Richard Vedder shows how the precarious position of colleges and universities results from a mostly unsuccessful expansion of governmental involvement in the academy especially at the federal level The book examines today s most serious issues in higher education including free speech and academic freedom tuition and other costs culture and curricula governance gender race and diversity due process admissions student loans and much more It diagnoses problems and identifies solutions For example the total cost of college per student in the United States is now higher than in any other country When combining the monetary costs of college with the opportunity costs of losing years of labor to the economy the true cost of higher education to American society well exceeds one trillion dollars annually Yet despite American higher education s immense price tag students are learning less than ever before and continue to be underemployed The book discusses the three I s of university reform information incentives and innovation Without information it is impossible for taxpayers and governing authorities to ensure that public education spending truly furthers the broader interests of society rather than the narrow interests of faculty and administrators Shaping incentives for management would help to reduce costs and improve quality Business practices such as Responsibility Centered Management RCM for example allow profit to motivate efficiency and encourage learning outcomes And expanding the use of innovation in technology and open online courses along with relinquishing old rules such as tenure and three

month summer vacations offer new hope for institutions of higher education The book discusses such additional reforms as the following Ending or revising the federal student financial aid program Giving departments or even professors a share of overall revenue based on student enrollments in their classes Departments or professors would then be required to pay their share of travel building rental maintenance utilities and other such costs from the revenues they receive Providing earnings data on former students by college five ten or fifteen years after matriculation Prospective students and parents as well as lawmakers and oversight officials would be assisted regarding school successes and failures Increasing faculty teaching loads Instituting three year degrees and year round instruction Ending discrimination against for profit schools Ending grade inflation Ending speech codes and other barriers to academic freedom Ending affirmative action and related diversity programs And more

**Piece to Text on the Monument and One: Letters with the International Body Managers**  
Kiyong Kim,2018-08-17 The aims of this book is clear and straightforward It was motivated to convert an inhumane or insipid experience with the various sources of global ranking into the kind of humanly and cultural experience within our daily lifestyle Their outlook from presentation is masked with the number purely and perhaps through a myriad of complicated data or ranking information The concept or self identification within the experience or exposure would be less substantial or hard to get palpable My attempt to improve this aspect of contemporary practice certainly will fall short but you can sense in some paragraphs or titles I wrote this small piece of book in the end to take care of human integrity and stories for advancing the inherence and liveliness of interested actors or consumers despite all the wind heads from the turf of existing ranking sources
