Every generation had its own way to tackle finances as well as budget. Generation X put a bit of its money to be used as an emergency fund because they had already seen what could happen when people invested in Wall Street and it came crashing down. Generation Y invested a bit of its money in stocks, shares, debentures, and lately in the 2000s penny shares. Generation Z, the latest generation, does not want to invest money into ventures and shares and a very volatile stock market. However, it wants to have full control over the money it has in hand. So now you are going to get tips and techniques on how to achieve financial goals and what you need to do to control your money in your 20s as well as your 30s. If you are already in your 30s and you have not started managing your money, you are starting out late. But then you have the excuse that you were so busy in your career planning, in relationships, and in other important personal and professional activities in your life that you really do not bother much about money, money sources, investing money, and how money could be managed in the future by you.
