The Impact of Multisensory

Foreign Language Instruction on Self-efficacy in Students with Developmental Dyslexia Bogusława

Gosiewska-Turek, 2025-07-02 This book investigates the effect of multisensory instruction on self efficacy among students with developmental dyslexia learning English as a foreign language The first three chapters of the book delve into theoretical aspects of developmental dyslexia multisensory instruction and self efficacy providing an overview of existing research in this domain The second part of the book reports empirical findings obtained from a case study supplemented by quantitative analysis These findings highlight the advantages of employing multisensory instructional techniques for teaching foreign languages to students with dyslexia Notably the application of multisensory instruction not only enhances dyslexic students foreign language competencies but also positively impacts their self efficacy The study underscores the importance of language instruction tailored to the special educational needs of students with dyslexia as well as its potential to foster self efficacy an essential factor for success in foreign language learning
