The Sufism of the Rubáiyát; Or, The Secret of the Great Paradox Omar Khayyam, Norton F. W. Hazeldine, 1902 [The Sufism of the Rubáiyát, or, the Secret of the Great Paradox](#) Omar Khayyam, 2022-07-20

In The Sufism of the Rubáiyát or the Secret of the Great Paradox Omar Khayyam delves into the intricate interplay between existential questioning and spiritual enlightenment. Employing a rich tapestry of quatrains, Khayyam articulates the profound Sufi notions of love, fate, and the nature of reality, revealing the paradoxes that underpin human existence. The work is a contemplative journey that intertwines lyricism with philosophical depth, presenting insights that echo within the broader context of Persian literature where the fusion of metaphysics and mysticism is deeply revered. Omar Khayyam, a polymath of the 11th century, was not only a poet but also a mathematician and astronomer, which might have instilled in him a unique perspective on the universe and humanity's place within it. His encounters with the Sufi tradition undoubtedly enriched his poetic vision, propelling him to explore themes of transcendence and earthly pleasures in a manner that has resonated through centuries. Known for his skepticism and rich metaphysical insights, Khayyam's background informs his search for meaning and authenticity amidst life's transitory nature. Readers are urged to engage with The Sufism of the Rubáiyát not merely as a poetic collection but as an evocative exploration of life's mysteries. This work invites contemplation and offers a canvas upon which the intricacies of the human experience are artfully painted. For those seeking a deeper understanding of Sufi philosophy interwoven with poetic beauty, Khayyam's examination is both enlightening and essential.

Attar and the Persian Sufi Tradition L. Lewisohn, C. Shackle, 2006-11-22. Farid al Din Attar d. 1221 was the principal Muslim religious poet of the second half of the twelfth century. Best known for his masterpiece *Mantiq al tayr* or *The Conference of Birds*, his verse is still considered to be the finest example of Sufi love poetry in the Persian language after that of Rumi. Distinguished by their provocative and radical theology of love, many lines of Attar's epics and lyrics are cited independently of their poems as maxims in their own right. These pithy, paradoxical statements are still known by heart and sung by minstrels throughout Iran, Afghanistan, Tajikistan and wherever Persian is spoken or understood, such as in the lands of the Indo-Pakistani Subcontinent. Designed to take its place alongside *The Ocean of the Soul*, the classic study of Attar by Hellmut Ritter, this volume offers the most comprehensive survey of Attar's literary works to date and situates his poetry and prose within the wider context of the Persian Sufi tradition. The essays in the volume are grouped in three sections and feature contributions by sixteen scholars from North America, Europe and Iran, which illustrate from a variety of critical perspectives the full range of Attar's monumental achievement. They show how and why Attar's poetical work as well as his mystical doctrines came to wield such tremendous and formative influence over the whole of Persian Sufism.
