Barker Bausell,2010-11-01 Too Simple to Fail presents a startling dissection of what is wrong with our educational system and a set of simple common sense steps for improving it Here Bausell demonstrates that classroom instruction is hopelessly obsolete as are our current testing practices both contributing to the widening opportunity gap between socioeconomic and racial groups But with an understanding of what is wrong with education today comes the revelation that the answer to these deficiencies has been available to us all along in the form of

the tutorial model the most effective instructional paradigm ever developed The new model presented in this book has implications for identifying not only what is wrong with the way we educate our young but also why it is wrong and how the educational process can be made more efficient effective and fair *Creating a Useful Science of Education* R. Barker Bausell,2017-10-04 Bausell provides a restrictive but defensible view of the purpose of educational research which is to produce instructional curricular or assessment products rather than seldom read and soon forgotten academic papers This book poses and answers two questions a whether it is possible for the science of education to develop into a discipline that could constructively impact the education of students and if so b what type of research would be required for this transformation Three genres of research were identified that possess the potential for impacting school instruction if the end result of this work is an instructional product capable of increasing learning by increased access to instruction or engagement therewith Finally specific suggestions are tendered for creating the infrastructure needed to realize this unique vision of what the science of education should be *Education pamphlets* ,1925 **Recruiting the String Section** Forest R.
