Summer Magic Joanne Lewis, 2015-12-02 Summer is a beautiful creative and fun floral colouring experience for all ages. With a focus on floral beauty and variety, this book will delight and entertain beginners to advanced colourists. Each of these beautiful individual designs is printed on a single page with the reverse left blank so no bleed through and perfect whether you use pencils, pens or paints. These highly detailed designs feature a balance of both stylized and hand-drawn flowers. The page layouts vary nicely with floral infused mandalas, blooming bouquets, abstract and singular frame-worthy works of art.

**Magical Pathworking** Nick Farrell, 2003-08 Through techniques of pathworking guided meditation, your imagination can shine a magic mirror on your personality. This inner landscape reveals your world as your unconscious sees it. This work shows the mystical use of pathworking as a method for contacting the divine. The Art of French Beaded Flowers Carol Benner Doelp, 2005 New in Paper French beading is a simple yet lovely art beautifully described here and illustrated in color with more than 70 close-up photos that show the intricacies of growing a garden of 30 flowers with delicate seed beads. Forty additional illustrations present the exact bead placement for each particular flower part. Just string the beads on wires and bend them into realistic three-dimensional shapes. A helpful introductory section covers all the basics. You can indulge your creative passion almost anywhere and the nicest thing is they last forever. Construct a budding dogwood branch, frame a mirror with wisteria blooms or make a holiday wreath of holly and gold-tipped pinecones. A gallery of vintage pieces illustrates the rich history of the craft. *The Ancient Secret of the Flower of Life, Volume 2* Drunvalo Melchizedek, 2000 The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science and stories, logic and coincidence on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer Ka Ba meditation step-by-step techniques for the re-creation of the energy field of the evolved human, which is the key to ascension and the next dimensional world. If done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself or others and even of the planet. Embrace the expanded vision and understanding that Drunvalo offers to the world. Coincidences abound, miracles flourish, and the amazing stories of mysteries unveiled arise as the author probes the Ancient Secrets of the Flower of Life. Botanical Bites: Recipes with
