Summer Themes For Infant Room:

Group Care for Infants, Toddlers, and Twos Deborah J. Norris, Diane M. Horm, 2019-10-23 This volume extends the knowledge base supporting research informed child care for infants and toddlers while simultaneously highlighting areas of study ripe for future research The authors demonstrate from a systems perspective that the experiences and outcomes of very young children in child care are influenced by characteristics of and interactions between the children adults and settings Varying methodological approaches as well as the utilization of newer data collection instruments inform the field s understanding of current practices and procedures while offering guidance for future programming and policy In turn the chapters highlight a plethora of open questions and a need for a new generation of research to support the field of infant toddler care Future challenges are evident in the recognition of the inadequate nature of our current measures of child outcomes and classroom processes the field s unmet promise to incorporate interdisciplinary perspectives and the need for newer methodological designs that blend the strengths of quantitative and qualitative approaches These issues are important given the growing demand for infant toddler care and the increasing recognition of the unique role of this age period in serving as the foundation for all later development This book was originally published as a special issue of Early Education and Development
