Bogenschneider, 2020-06-30 How America was Tricked on Tax Policy explains how regular citizens were tricked by the outdated view of economists that much heavier taxation of labor rather than capital is economically justifiable The truth is that workers pay their taxes while the rich pay very little Based on reputable sources of information including publications of the Organization for Economic Cooperation and Development OECD official statistics data and the publications in high ranked journals the book paves the way for a new policy making process aimed to achieve more sustainable taxation and to increase the wellbeing of citizens as the main goal of any modern state policy Dealing with critically important and underexplored topics in tax policy the book challenges an enshrined dogma that is rarely challenged at the level of policy In doing so this book envisions policy changes that could be highly impactful in a new political administration This book

proposes that governments should look for not just corporate income tax rate reduction when announcing their tax reforms but should equally focus on the reduction of the overall tax burden on labor. The negative impact and high social cost of wage taxation is exemplified by the key areas of tax policy that are relevant for every wealthy state such as taking due care of public health, investing in education and wellbeing of children and supporting small business for the overall benefit to society. The book compellingly argues how tax policy could be improved by incorporating science and scientific methods.

Elliot Brownlee, Hugh Davis Graham, 2003 Table of contents      *Accounting under IndAS: An Illustrative Manual* Santosh Maller, 2020-06-20

About the book: Ind AS transition has resulted in high quality principles based globally comparable financial reporting of large Indian companies. The transition not only impacted the financial results of companies but also caused far reaching consequential business impact. Since last two years there have been several changes in Ind AS for example amendments in the revenue recognition standard and new leases standard has drastically changed the performance reporting in the balance sheet composition of companies. Further certain Ind AS principles are implicitly complex for example the accounting for financial instruments, acquisitions and business combinations are quite nuanced and can get difficult to apply without proper understanding. Towards this end this book attempts to provide insights and in depth analysis on interpretative issues and complex principles in the Ind AS standards. Ind AS contains extensive presentation and disclosure requirements. The relevant chapters extensively deal with these requirements with illustrative examples. To simplify the reading experience the chapters include a brief easy to understand summary of the relevant standard followed by Frequently Asked Questions (FAQs) on the chapter. Coronavirus COVID 19 has also resulted in widespread economic uncertainty and disruption of businesses. There have been far reaching implications on financial reporting. These circumstances would potentially present entities with several challenges when preparing their financial statements. This Edition covers some of the key financial reporting implications by way of FAQs in related chapters that companies need to consider along with the possible approaches that they may consider to dealing with the same keeping in view the business objectives, financial covenants and the accounting standards. This book is intended to help the companies to identify Ind AS requirements that are relevant to them and evaluate various accounting policy choices available under Ind AS. The disclosure related issues would be useful to benchmark with the Ind AS IFRS disclosures of major companies. Currently there is limited literature of the Ind AS application issues. This book endeavors to provide guidance on these issues. The book would be an immensely useful referencer for professionals, practitioners and corporates.      *The Accountant Tax Supplement*, 1928
