He asks what things currently described as AI are not microprediction whether microprediction is an individual or collective activity and how we can produce and distribute high quality microprediction at low cost The world is missing a public utility he concludes while companies are missing an important strategic approach that would enable them to benefit and also give back In an engaging colloquial style Cotton argues that market inspired superminds are likely to be very effective compared with other orchestration mechanisms in the domain of microprediction He presents an ambitious yet practical alternative to the expensive artisan data science that currently drains money from firms Challenging the machine learning revolution and exposing a contradiction at its heart he offers engineers a new liberty no longer reliant on quantitative experts they are free to create intelligent applications using general purpose application programming interfaces APIs and libraries He describes work underway to encourage this approach one that he says might someday prove to be as valuable to businesses and society at large as the internet

Silicon Empires Nick Srnicek, 2025-12-23 Since the emergence of ChatGPT generative AI has been heralded as a technology poised to revolutionize our world But beyond the hype and hyperbole who truly wields power over this transformative technology In *Silicon Empires* Nick Srnicek explores the geopolitical economy of artificial intelligence revealing how a handful of powerful corporations and states are engaged in a monumental struggle to control its future Srnicek moves beyond the headlines to lay bare the elaborate strategies that these silicon empires from tech giants to great powers are deploying to capture the immense value of AI This incisive analysis uncovers the deep seated tensions between corporate ambitions and national interests and the profound consequences of this new era of technological competition As the race for AI supremacy accelerates Srnicek compellingly demonstrates that the decisions being made in the boardrooms of Silicon Valley and the halls of government will shape the distribution of wealth and power on a global scale for decades to come

Feeding the Machine Callum Cant, James Muldoon, Mark Graham, 2024-08-06 For readers of Naomi Klein and Nicole Perlroth a myth dissolving expos of how artificial intelligence exploits human labor and a resounding argument for a more equitable digital future Silicon Valley has sold us the illusion that artificial intelligence is a frictionless technology that will bring wealth and prosperity to humanity But hidden beneath this smooth surface lies the grim reality of a precarious global workforce of millions laboring under often appalling conditions to make AI possible This book presents an urgent riveting investigation of the intricate network that maintains this exploitative system revealing the untold truth of AI Based on hundreds of interviews and thousands of hours of fieldwork over more than a decade *Feeding the Machine* describes the lives of the workers deliberately concealed from view and the power structures that determine their future It gives voice to the people whom AI exploits from accomplished writers and artists to the armies of data annotators content moderators and warehouse workers revealing how their dangerous low paid labor is connected to longer histories of gendered racialized and colonial exploitation AI is an extraction machine that feeds off humanity's collective effort and intelligence churning through ever larger datasets to power its algorithms This book is a call to arms that details what we
