## **International Perspectives on Teachers Living with Curriculum Change** Martin Wedell,Laura Grassick,2017-11-10

This book gives a voice to English language teachers faced with the challenges posed by English language curriculum change As a core component of national state system curricula in virtually every country in the world there has nevertheless been little research exploring how the millions of English teachers worldwide navigate the challenges posed by such curriculum changes This volume includes eleven stories from teachers based across every continent providing a global glimpse of how national English curriculum change projects have been experienced by classroom teachers who are commonly if erroneously viewed as mostly responsible for its implementation success or failure The final chapter synthesises these experiences and suggests wider implications for the development of curriculum change planning processes and how they might better support teachers attempts to achieve curriculum goals Edited and authored by leading experts in the field this ground breaking collection will be of interest to students and scholars of English language teaching teacher education curriculum change and education policy

**More Than a Gap Year Adventure** Martin Hajek, 2024-02-14 Teaching English is often perceived as a temporary job abroad yet it is perfectly possible to have a long term career in the profession. **More Than a Gap Year Adventure: How to Make a Long Term Career out of TEFL** provides teachers with information they may not have access to at the beginning of their career which can help them avoid common issues that in many cases result in English teachers leaving the field disillusioned. In addition to actionable advice for moving beyond entry level TEFL roles the book includes 23 essays written by experienced professionals providing real life tips based on the writers personal experience. It promotes the idea of being proactive in career development so that one can find a rewarding ELT job with a reputable institution or set up their own business.

**Meeting the Demand for TESL** Catherine A. Smith, Heidi E. Vellenga, Marian Parker, Norman L. Butler, 2006 This paper assembles innovative ideas from several disciplines and offers an integrated discussion for improving TESL/TEFL curriculum design specifically for individuals from peripheral social contexts and to address the global demand for ESL/EFL teachers. Overall the suggested innovations serve to 1. increase program accessibility to individuals who might not otherwise pursue professional development and/or continuing education and 2. enhance instructional effectiveness by including instructional topics and techniques which support novice and nonnative English teachers. Adjustments to admission practices, instruction practices, and long term professional support allow the program to reach a greater population of teachers to serve the ever increasing worldwide demand for English teachers. A website available prior to, during, and after instruction allows participants to continue research projects, learn about professional development opportunities, and participate in a virtual community of TESL/TEFL professionals regardless of their current teaching placement environment. More practically focused instruction which is delivered via both on site instruction and DL/distance learning technology results in more competent teachers completing TESL/TEFL programs. The more practically focused instruction incorporates recent language research and language teaching innovations from applied linguistics, multicultural literature, conflict communication strategies, and educational leadership. The language research innovations include descriptive grammar, pragmatics, and discourse analysis. These give teachers a substantially more accurate understanding of English language structures and functions at clause, sentence, and discourse levels. They provide essential tools to more accurately analyze and thus more effectively teach English in a variety of educational contexts. The language teaching innovations include participatory language teaching, sheltered language instruction, and authentic assessments which extend the learning

benefits of communicative language teaching CLT methods These TESL TEFL methods are incorporated with multicultural literature conflict communication strategies and educational leadership to form an interdisciplinary program which provides scaffolded instructional content and techniques which may better serve the needs of TESL TEFL teacher training program stakeholders The following are appended 1 Descriptive Grammar Activity 2 Pragmatics Activities 3 Discourse Analysis Activities and 4 Multicultural Literature Activities Contains 4 figures and 65 footnotes This report was published by the Forum on Public Policy [Continuing Professional Development](#) Julian Edge,2002-01-01 [Easy Tefl Guide to Teaching English As a Foreign Language](#) T.
