

There is something about Sundlata [Acoli] that exudes calm. From every part of his being you can sense the presence of revolutionary spirit and fervor. And his love for Black people is so intense that you can almost touch it and hold it in your hand.

Meriwether, 2021-10-19 In the mid twentieth century the struggle against colonial rule fundamentally reshaped the world and the lives of the majority of the world's population Decolonization Black and Brown freedom movements the establishment of the United Nations and NATO an exploding Cold War a burgeoning world human rights movement all became part of the dramatic events that swept through Africa at a furious pace with fifty nations gaining independence in roughly fifty years Meanwhile the United States emerged as the most powerful and influential nation in the world with the ability politically economically militarily and principles to help or hinder the transformation of the African continent Tears Fire and Blood offers a sweeping history of how the United States responded to decolonization in Africa James H Meriwether explores how Washington grappling with national security interests and racial prejudices veered between strengthening African nationalist movements seeking majority rule and independence and bolstering anticommunist European allies seeking to maintain white rule Events in Africa helped propel the Black freedom struggle around the world and ultimately forced the United States to confront its support for national ideals abroad as it fought over how to achieve equality at home *American Literature's Aesthetic Dimensions* Cindy Weinstein, Christopher Looby, 2012-07-17 Rethinking the category of aesthetics in light of recent developments in literary theory and social criticism the contributors to this volume showcase the interpretive possibilities available to those who bring politics culture ideology and conceptions of identity into their critiques Essays combine close readings of individual works and authors with more theoretical discussions of aesthetic theory and its relation to American literature In their introduction Weinstein and Looby argue that aesthetics never left American literary critique Instead the

essay casts the current return to aesthetics as the natural consequence of shortcomings in deconstruction and new historicism which led to a reconfiguration of aesthetics. Subsequent essays demonstrate the value and versatility of aesthetic considerations in literature from eighteenth century poetry to twentieth century popular music. Organized into four groups: politics, form, gender, and theory, contributors revisit the canonical works of Henry James, Nathaniel Hawthorne, and Stephen Crane, introduce the overlooked texts of Constance Fenimore Woolson and Earl Lind, and unpack the complexities of the music of The Carpenters. Deeply rooted in an American context, these essays explore literature's aesthetic dimensions in connection to American liberty and the formation of political selfhood. Contributors include Edward Cahill, Ivy G. Wilson, June Ellison Dorris, Beam, Christopher Castiglia, Christopher Looby, Wendy Steiner, Cindy Weinstein, Trish Loughran, Jonathan Freedman, Elisa New, Dorothy Hale, Mary Esteve, Eric Lott, Sianne Ngai.

Chocolate Islands Catherine Higgs, 2012-05-21. In *Chocolate Islands: Cocoa, Slavery, and Colonial Africa*, Catherine Higgs traces the early twentieth century journey of the Englishman Joseph Burt to the Portuguese colony of São Tomé and Príncipe, the chocolate islands through Angola and Mozambique, and finally to British Southern Africa. Burt had been hired by the chocolate firm Cadbury Brothers Limited to determine if the cocoa it was buying from the islands had been harvested by slave laborers forcibly recruited from Angola, an allegation that became one of the grand scandals of the early colonial era. Burt spent six months on São Tomé and Príncipe and a year in Angola. His five-month march across Angola in 1906 took him from innocence and credulity to outrage and activism, and ultimately helped change labor recruiting practices in colonial Africa. This beautifully written and engaging travel narrative draws on collections in Portugal, the United Kingdom, and Africa to explore British and Portuguese attitudes toward work, slavery, race, and imperialism. In a story still familiar a century after Burt's sojourn, *Chocolate Islands* reveals the idealism, naivety, and racism that shaped attitudes toward Africa, even among those who sought to improve the conditions of its workers.

Talkin and Testifyin Geneva Smitherman, 1986. In this book, Smitherman makes a substantial contribution to an understanding of Black English by setting it in the larger context of Black culture and life style. In her book, Geneva Smitherman makes a substantial contribution to an understanding of Black English by setting it in the larger context of Black culture and life style. In addition to defining Black English by its distinctive structure and special lexicon, Smitherman argues that the Black dialect is set apart from traditional English by a rhetorical style which reflects its African origins. Smitherman also tackles the issue of Black and White attitudes toward Black English, particularly as they affect educational policy. Documenting her insights with quotes from notable Black historical literary and popular figures, Smitherman makes clear that Black English is as legitimate a form of speech as British, American, or Australian English.
