Carefree California: Cliff May and the Romance of the Ranch House Nicholas Olsberg, Jocelyn Gibbs, 2012-09-04 This landmark volume is an authoritative richly illustrated

examination of the origins evolution and influence of the California ranch house Carefree California looks at a legendary figure in Southern California design Cliff May and the ubiquitous domestic icon his name evokes the ranch house We also see how other architects from George Washington Smith to Rudolph Schindler pursued different paths toward the same kind of relaxed domesticity exemplified by the ranch house By the late 50s much of the world was fascinated with California living and with the ranch house in particular which derived from architects evocation and reworking of distinctive regional traditions allied with the pervasive romance and myths of the California frontier and from the cultivation of a domestic architecture that could serve distinctively Californian ways of carefree living By uncovering patterns for living that suited the automobile age among the almost archaic forms and rhythms of mission and pioneer dwellings an extraordinary range of modernism emerged that was at once grounded in history and soaring into the space age

*Houses for a New World* Barbara Miller Lane, 2022-07-12 The fascinating history of the twentieth century's most successful experiment in mass housing While the work of Frank Lloyd Wright Richard Neutra and their contemporaries frequently influences our ideas about house design at the midcentury most Americans during this period lived in homes built by little known builders who also served as developers of the communities Often dismissed as little boxes made of ticky tacky the tract houses of America's postwar suburbs represent the twentieth century's most successful experiment in mass housing *Houses for a New World* is the first comprehensive history of this uniquely American form of domestic architecture and urbanism Between 1945 and 1965 more than thirteen million houses most of them in new ranch and split level styles were constructed on large expanses of land outside city centers providing homes for the country's rapidly expanding population Focusing on twelve developments in the suburbs of Boston Philadelphia Chicago and Los Angeles Barbara Miller Lane tells the story of the collaborations between builders and buyers showing how both wanted houses and communities that espoused a modern way of life informal democratic multiethnic and devoted to improving the lives of their children The resulting houses differed dramatically from

both the European International Style and older forms of American domestic architecture Based on a decade of original research and accompanied by hundreds of historical images plans and maps this book presents an entirely new interpretation of the American suburb The result is a fascinating history of houses and developments that continue to shape how tens of millions of Americans live Featured housing developments in Houses for a New World Boston area Governor Francis Farms Warwick RI Wethersfield Natick MA Brookfield Brockton MA Chicago area Greenview Estates Arlington Heights IL Elk Grove Village Rolling Meadows Weathersfield at Schaumburg Los Angeles and Orange County area Cinderella Homes Anaheim CA Panorama City Los Angeles Rossmoor Los Alamitos CA Philadelphia area Lawrence Park Broomall PA Rose Tree Woods Broomall PA

**The Frontier of Leisure** Lawrence Culver,2010-09-20 Southern California has long been promoted as the playground of the world the home of resort style living backyard swimming pools and year round suntans Tracing the history of Southern California from the late nineteenth century through the late twentieth century The Frontier of Leisure reveals how this region did much more than just create lavish resorts like Santa Catalina Island and Palm Springs it literally remade American attitudes towards leisure Lawrence Culver shows how this culture of leisure gradually took hold with an increasingly broad group of Americans and ultimately manifested itself in suburban developments throughout the Sunbelt and across the United States He further shows that as Southern Californians promoted resort style living they also encouraged people to turn inward away from public spaces and toward their private homes and communities Impressively researched a fascinating and lively read this finely nuanced history connects Southern Californian recreation and leisure to larger historical themes including regional development architecture and urban planning race relations Indian policy politics suburbanization and changing perceptions of nature
