Kids have you ever had a cool science demonstration at school and wanted to learn more about it at home? Have you ever wondered about something and thought your parents or caregivers could help you learn more about it? Or are you just interested in science and want to learn more about how it works using simple everyday items from home? This book is going to be great for you! It's a simple explanation of 20 of the coolest science experiments to do from home using items that are usually found in an average household. There are a ton of things to learn from this book and the experiments are fun and will teach you something about science you probably didn't already know. Get ready to impress your teacher and classmates! Make sure that you have an adult help you with the experiments included in this book; grownups are great at helping you learn and will make sure that all of these experiments are done safely and correctly. Each of the activities can be done with items generally found in your home or can be purchased at a low cost at a local pharmacy or grocery store. They are all safe and non-toxic; however, proper safety measures should be taken to show children how it is essential always to be protected and prepared. This book covers experiments to learn about the following: Biology, Physics, Earth, Air and Gases, Water and Liquids, Color, Sound, and Music, Art, Plants, and Seeds. And much more! Enjoy the experiments and have fun teaching your children about science and knowing they are enjoying it. Get your copy now!

This text adopts a hands-on approach to teaching science, involving the reader in activities and problem-solving techniques. Activities on energy, health, and ecology have been expanded, and more emphasis is placed on interdisciplinary relationships with social studies, language, and arithmetic.

**Science Activities for Middle School Students** George C. Lorbeer, 2000

Science Activities for Middle School Students is a revision of George Lorbeer and Leslie Nelson's classic Science Activities for Children. It gives instructors practical, fun, hands-on learning activities to help teach children about science and problem-solving skills. Each activity follows a step-by-step format: Problem, Procedure, Result, Supplemental Information, and Thought Questions. The activities are accompanied by simple illustrations that help clarify procedures and expected results. With a total of nearly 300 activities, future science teachers will find a wealth of ideas to help them become more effective in the classroom.

Science Activities for Middle School Children contains more challenging, higher-level science activities, such as ones about the Greenhouse Effect, the Icehouse Effect, Ozone Depletion, and the Eutrophication of some of our fresh water supplies. The text
