Social - Local - Mobile Gerrit Heinemann, Christian Gaiser, 2014-11-20 In the future shopping will be greatly influenced by a combination of localization issues, mobile internet at the point of sale and use of social networks. This book focuses on the SoLoMo synergies that arise from this paradigm shift in future shopping, which also promises new and effective marketing options for traditional retailers. It also reflects the current status of research and business practice, analyzing the basic factors of SoLoMo in detail. The importance of Location based Services (LBS) is elaborated and analyzed in an empirical study using a market based case of KaufDA, a leading German online shopping network. The evidence shows that customers see LBS as an attractive tool and are prepared to change their buying behavior. Though LBS is still in its early stages and its professional longevity remains to be seen, it also promises tremendous potential for the future. *Proceedings of the XIII International Symposium SymOrg 2012: Innovative Management and Business Performance*, 2012-06-03 **Dubai Travel Guide 2026** Miles Blackwood, 2025-07-18 This Dubai travel guide is a practical no frills resource designed to help you navigate the city with confidence. Intelligent Retail Gerrit Heinemann, 2022-10-13 This book shows stationary retail a way to reinvent itself after Corona in order to be able to survive against the strong competition of online retail. The focus is on the central issues that will shape the retail of the future. For example, brick and mortar retail in particular must now work with intelligent systems based on data and adopt or even surpass methods that the large online marketplaces have been using successfully for a very long time. In this regard, artificial intelligence also plays a major role in retail. This is not just about automation and robots taking over tasks, but also about instruments and machines being able to learn and draw conclusions themselves in all retail functions. This is becoming increasingly difficult because our shopping and search behavior is constantly changing. Therefore, a customer should receive intelligent recommendations in the store, which are also based on his already known interests and behavior patterns. Gerrit Heinemann shows how intelligent action can save stationary retail in city centres and shopping centres. The content: From stationary Retail to intelligent Retail. Threats to the stationary retail trade. Basic requirements and manifestations of intelligent Retail. Examples of intelligent retail of the future. Risks for intelligent Retail. *Consumer Behavior in Action* Geoffrey Paul Lantos, 2015-01-28 Consumer Behavior in Action is a down to earth, highly engaging and thorough introduction to consumer behavior.
