Emergency Medicine MCQs - E-Book Waruna De Alwis, Yolande Weiner, 2012-09-20 An invaluable self assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination. FACEM The multiple choice questions in Emergency Medicine MCQs cover both the core and non core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important

clinical problems encountered in everyday emergency medicine practice from cardiovascular emergencies through to obstetric and gynaecology emergencies disaster management and toxicology As well as being ideal for emergency medicine trainees qualifying through AECM the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs on call Plus this emergency medicine text is accompanied by an app a separate product containing 180 randomised multiple choice questions on all the topics within the book Test bank Evidence based clinically oriented material Question format coherent with updated ACEM guidelines updated in August 2011 References and further reading [Student Study Guide for Breastfeeding and Human Lactation](#) Kathleen G. Kuby Immunology Jenni Punt, Sharon Stranford, Patricia Jones, Judy Owen, 2018-10-16 Janis Kuby's groundbreaking introduction to immunology was the first textbook for the course actually written to be a textbook. Like no other text, it combined an experimental emphasis with extensive pedagogical features to help students grasp basic concepts. Now in a thoroughly updated new edition, Kuby Immunology remains the only undergraduate introduction to immunology written by teachers of the course. In the Kuby tradition, authors Jenni Punt, Sharon Stranford, Patricia Jones, and Judy Owen present the most current topics in an experimental context, conveying the excitement of scientific discovery and highlighting important advances, but do so with the focus on the big picture of the study of immune response enhanced by unsurpassed pedagogical support for the first-time learner. Punt, Stranford, Jones, and Owen bring an enormous range of teaching and research experiences to the text as well as a dedication to continue the experiment-based, pedagogical-driven approach of Janis Kuby. For this edition, they have worked chapter by chapter to streamline the coverage to address topics that students have the most trouble grasping and to continually remind students where the topic at hand fits in the study of immunology as a whole.
