*Teaching Primary Years* Katherine Main, 2020-07-16 The primary years are recognised as a distinct period in a child's development with significant consequences for ongoing educational success. During this critical time formal schooling and the associated activities introduce children to new and extended social roles where they learn to cooperate and collaborate with their peers and adults. Children also begin to develop a sense of themselves and their competence in a range of domains including social academic sport and music. This edited collection provides specialist guidance in developing curriculum pedagogy and assessment to meet the needs of primary years children. The text begins by exploring the unique characteristics of this age group including cognitive social emotional and physical development. It considers the expectations of teachers including ethical and legal issues and guidance on how to develop positive learning spaces and collaborative approaches. There is an exploration of the needs of the child including facilitating transition from the early years and into secondary school. The text then considers the curriculum in depth including language and literacy mathematics and numeracy science and technology health and physical education and the humanities. A focus on some of the key challenges in primary education bring the book to its conclusion including effectively harnessing digital technology developing age appropriate pedagogies practising differentiated learning and effective assessment.
