Dialogues and Afterlives Monika Coghen, Anna Paluchowska-Messing, 2020 Romantic writers often asserted their individuality but this assertion tended to take the form of positioning themselves in relation to other authors and literary texts. Thus they implicitly acknowledged the rich network of broadly understood poetic dialogue as an important and potent source for their own creativity. When in 1816 John Keats wrote 'Great spirits now on earth are sojourning' he celebrated the originality of his contemporaries and the historical significance of his times pointing to deep interest in the hum of mighty works in all the fields of human activity to which the nations ought to listen. Keats's sonnet suggests not only stimulating exchanges between poets, artists and social thinkers in the same language but also the idea of transnational appreciation and dialogue. The volume takes up this idea and explores the dialogues of Romantic authors within the wide scope of European and American cultures. Essays by scholars from Germany, Britain, Bulgaria, Poland, Canada and the United States of America examine Romantic writers' responses to their contemporaries, explore their dialogues with the culture of the past and their interactions across the arts and sciences. They also scrutinize the Romantics' far-reaching influence on later writers and artists and thus extend the network of artistic exchange to modern times. The volume offers a rich tapestry of interconnections that span across time and space, interlace languages and cultures and link Romantic writers and artists with their predecessors and successors across Europe and America. The essays in the collection invite the reader to join ongoing dialogues between writers and their audiences of the past and present.

Fictional Worlds and Philosophical Reflection Garry Hagberg,2022-01-31 This edited collection investigates the kinds of philosophical reflection we can undertake in the imaginative worlds of literature Opening with a look into the relations between philosophical thought and literary interpretation the volume proceeds through absorbing discussions of the ways we can see life through the lens of literature the relations between philosophical saying and literary showing and some ways we can see the literary past philosophically and assess its significance for the present Taken as a whole the volume shows how imagined contexts can be a source of knowledge a source of conceptual clarification and a source of insight and understanding And because philosophical thinking is undertaken after all in words a heightened sensitivity to the precise employments of our words particularly philosophically central words such as truth reality perception knowledge selfhood illusion understanding falsehood can bring a clarity and a refreshed sense of the life that our words take on in fully described contexts of usage And in these imagined contexts we can also see more acutely and deeply into the meaning of words about words metaphor and figurative tropes verbal coherence intelligibility implication sense and indeed the word meaning itself Moving from a philosophical issue into a literary world in which the central concepts of that issue are in play can thus enrich our comprehension of those concepts and in the strongest cases substantively change the way we see them With a combination of conceptual acuity and literary sensitivity this volume maps out some of the territory that philosophical reflection and literary engagement share Balthus Mieke Bal,Balthus,2008 Mieke Bal analysis is focused in the eerie sense of very real and very unreal that the paintings emanate She considers this the heart of Balthus work It invites viewers in and repels them at the same time We get access to a world all his own but are not told what is there to see Thus the works labor against assumptions of representation and appropriation The means of this labor figuration is indispensable for the effect Although figurativity is supposedly the royal road to realism in Balthus s case it is not at all Bal argues that the paintings draw the viewer into a world we know not to exist This canny fictionality makes allegations of erotic appropriation naive and censoring Reducing Balthus s work to the paintings of nude adolescent girls is moreover ignoring his many works that are not in the least focused on this theme Color space genres or history are some of the key concepts that the author put in the center of Balthus work 130 illustrations **The British Library General Catalogue of Printed Books to 1975** British Library,1984 **The English Gothic Novel: Collateral Gothic 1** Thomas Meade Harwell,1986 Stechert-Hafner Book News ,1953 **Antiquarian Bookman** ,1964 Books in Print ,1991 **American Book Publishing Record** ,2004
