Timber consumption and sustainable forest use O'Brien, Meghan, 2016-07-08 The global demand for timber is increasing, with prognoses for the EU showing particularly high growth to meet renewable energy targets. However, there are limited options to meet rising timber demands within the EU and global land competition to meet world food, energy, and material needs as well as to conserve high-value nature areas is increasing. This dissertation addresses the knowledge gap between the pressures of increased land use

abroad and the underlying drivers of land use change It argues that there is a high risk of problem shifting if EU policies to increase timber consumption are not accompanied by a monitoring system that accounts for consumption levels and provides a benchmark for sustainability **The Wheel and Cycling Trade Review** ,1888 *T.P.'s and Cassell's Weekly* ,1923
