The Salvaging of Civilization the Probable Future of Mankind The two years of want confusion and indecision that have followed the great war in Europe and Asia and the uncertainties that have disturbed life even in the comparatively untouched American world seem to many watchful minds even more ominous to our social order than the war itself What is happening to our race they ask Did the prosperities and confident hopes with which the twentieth century opened mark nothing more than a culmination of fortuitous good luck Has the cycle of prosperity and progress closed To what will this staggering and blundering the hatreds and mischievous adventures of the present time bring us Is the world in the opening of long centuries of confusion and disaster such as ended the Western Roman Empire in Europe or the Han prosperity in China And if so will the debacle extend to America Or is the American and Pacific system still sufficiently removed and still sufficiently autonomous to maintain a progressive movement of its own if the Old World collapse Some sort of answer to these questions vast and vague though they are we must each one of us have before we can take an intelligent interest or cast an effective

The Salvaging Of Civilization H G Wells, 2021-02-14 The present outlook of human affairs is one that admits of broad generalizations and that seems to require broad generalizations We are in one of those phases of experience which become cardinal in history A series of immense and tragic events have shattered the self complacency and challenged the will and intelligence of mankind That easy general forward movement of human affairs which for several generations had seemed to justify the persuasion of a necessary and invincible progress progress towards greater powers greater happiness and a continual enlargement of life has been checked violently and perhaps arrested altogether The spectacular catastrophe of the Great War has revealed an accumulation of destructive forces in our outwardly prosperous society of which few of us had dreamt and it has also revealed a profound incapacity to deal with and restrain these forces

The Salvaging of Civilization Herbert George Wells, 1921 *The Salvaging of Civilization* H Wells, 2017-03-22 The Salvaging of Civilization was a work on civilisational technics that was first published in 1921 Before and during the war Wells was a somewhat of an optimist He believed that the folly of war was something that could be overcome and finally put to rest The Salvaging of Civilization sets about planning a World State for the future foreshadowing both The Open Conspiracy and The New World Order that he wrote in later years In this book he lays out his plans for a World State and enlarging patriotism from the nation state out into the world He also lays out his plans for a new form of progressive education that echo the radically progressive thinker Comenius

Wells, 2017-03-01 This Book is annotated it contains a detailed biography of the author An active Table of Contents has been added by the publisher for a better customer experience This book has been checked and corrected for spelling errors H G Wells wrote this in 1921 as basically a series of lectures he planned to give in America on how the future of education should go In his present Wells found the educational system deplorable He states in the last part of the book that ill health prevented these lectures and also hampered what I assumed to be the editing of the book That given he probably shouldn't have published it but as an author the urge to publish a major writing no matter how flawed can be irresistible The substance of the book is an excruciatingly detailed and rather pedantic treatise on how to fix not only education but civilization itself although his greatest concentration was on education It's a secret to only a few perhaps that Wells favored Socialism over Capitalism and his urge to control the masses is evident here **The Salvaging of Civilisation** H.
