conversation between them before the visitor from the West had been seated before the library fire and had sampled one of the elder Swift's good cigars It is not only a future possibility said the latter gentleman shrugging his shoulders As far as the Hendrickton and Pas Alos Railroad Company goes a two mile a minute gait not alone on a level track but through the Pas Alos Range is an immediate necessity It's got to be done now or our stock will be selling on the curb for about two cents a share You do not mean just that do you Mr Bartholomew asked Tom Swift earnestly and staring at the big little man before the fire Mr Richard Bartholomew was just that a big little man In the railroad world both in construction and management he had made an enviable name for himself He had actually built up the Hendrickton and Pas Alos from a narrow gauge jerkwater road into a part of a great cross continent system that tapped a wonderfully rich territory on both sides of the Pas Alos Range For some years the H but I expect the Swift Construction Company to take anything I may say as said in confidence We quite understand that Mr Bartholomew said the elder Swift softly You can speak freely Whether we do business or not these walls are soundproof and Tom and I can forget or remember as we wish Of course if we take up any work for you we must confide to a certain extent in our close associates and trusted mechanics Humph grunted the visitor turning restlessly again in his chair Then he said I agree as the necessity of that last statement but I can only hope that these walls are soundproof What's that demanded Tom rather sharply He was a bright looking young fellow with an alert air and a rather humorous smile His father was a semi invalid but Tom possessed all the mental vigor and muscular energy that a young man should have He had not neglected his Athletic development while he made the best use of his mental powers

Tom Swift and His Big Tunnel Victor Appleton, 2012-11-18 Tom Swift seated in his laboratory engaged in trying to solve a puzzling question that had arisen over one of his inventions was startled by a loud knock on the door So emphatic in fact was the summons that the door trembled and Tom started to his feet in some alarm Hello there he cried Don't break the door Koko and then he laughed No one but my giant would knock like that he said to himself He never does seem able to do things gently But I wonder why he is knocking I told him to get the engine out of the airship and Eradicate said he'd be around to answer the telephone and bell I wonder if anything has happened
