### **Tombstone Postcard History:**

*Tombstone's Treasure* Sherry Monahan, 2010-11-23 Sherry Monahan is an authority on the city that wouldn't die and its history. In Tombstone's Treasure she focuses on the silver mines one reason for the city's founding and the saloons the other reason the city grew so quickly. When the discovery of silver at Tombstone first became known in mid 1880 there were about twenty six saloons and breweries. By July of the following year the number of saloons in Tombstone had doubled. The most popular saloon games of the time were faro, monte and poker with some offering keno, roulette and twenty one. Monahan shares true tales about Tombstone's mining and gambling history and describes a different time and locale where wealthy businesspeople and rugged miners rubbed elbows at the bar and gambled side by side. It is both shocking and enlightening to learn just how sophisticated Tombstone really was when the Earps Doc Holliday, Johnny Ringo and Curly Bill strode the boardwalks. Tombstone actually had telephones, ice cream parlors, coffee shops, a bowling alley and a swimming pool. Wow! It is so contrary to the Hollywood version of the town but it's absolutely true. From the Foreword by Bob Boze Bell. Read Sherry Monahan's interview on AMC on the Wild West and the film Wild Bill.

*The Journal of Arizona History*, 2014

*Neapolitan Postcards* Goffredo Plastino, Joseph Sciorra, 2016-06-22

Neapolitan Postcards gathers a diverse group of international scholars to investigate unexplored transnational aspects of the intimate yet globally popular canzone napoletana. Performed and beloved worldwide in almost every language the style had hits such as Funicul funicul 1880 and O sole mio 1898 which sold millions of copies. These hits fueled the tradition's spread across the world over the course of the twentieth century with the eventual popularity of covers by singers and musicians of all music genres and styles from popular music to opera and jazz. This book is the first scholarly work that considers the specific complexities of the international Neapolitan Song scenes through case studies from Argentina, England, Greece and the United States employing analyses of compositions, iconographical sources, international films, mechanical musical instruments, performances and recordings devoted to the canzone napoletana.

**New Jersey Cemeteries and Tombstones** Richard Francis Veit, Mark Nonestied, 2008 In this sweeping tour of New Jersey's burial sites from the seventeenth century through the dawn of the twenty-first, readers will discover how headstones are much more than place markers for the deceased. From the earliest memorials that were once used by Native Americans to some of the elaborate structures of the present day, historians Richard F. Veit and Mark Nonestied use grave markers to tell an off-beat account of

New Jersey's history that is both fascinating and unique. In detailed descriptions the authors explain what cemeteries and their gravemarkers say about different individuals and the communities in which they lived. Images that decorate seventeenth century headstones such as skulls, hourglasses and crossed bones speak to the brevity of life in the colonial world. Eighteenth century cemeteries reflect the distinctive cultures that sprang up in the state at that time ranging from the unadorned marble markers used by Quakers to rich brown sandstone used by settlers in the central and northern regions of New Jersey. By the Victorian era markers were transformed into elaborate monuments and mausoleums as New Jerseyans honored their dead relatives with a cavalcade of obelisks, pillars, ornate statuary and sculpture. Today's tombstones continue to mirror New Jersey society. A life-sized Mercedes-Benz headstone in a Linden cemetery, for example, reflects the materialism of the new millennium. Also considered are modern day novelties such as pet cemeteries and what they mean for modern culture. Having visited more than 900 state burial grounds and interviewed dozens of owners of monument companies, this richly illustrated book is essential reading for history buffs and indeed anyone who has ever wandered inquisitively through his or her local cemeteries.

Endowment Best Book Award from the East Texas Historical Association. In *Lynching and Leisure* Terry Anne Scott examines how white Texans transformed lynching from a largely clandestine strategy of extralegal punishment into a form of racialized recreation in which crowd involvement was integral to the mode and methods of the violence. Scott powerfully documents how lynchings came to function not only as tools for debasing the status of Black people but also as highly anticipated occasions for entertainment, making memories with friends and neighbors and reifying whiteness. In focusing on the sense of pleasure and normality that prevailed among the white spectatorship, this comprehensive study of Texas lynchings sheds new light on the practice understood as one of the chief strategies of racial domination in the nineteenth and twentieth century.

Further, Arizona remains underexplored as an early twentieth century tourism

destination when compared with nearby California and New Mexico. With the notable exception of the Grand Canyon little has been written about tourism in the early days of Arizona's statehood. *Mapping Wonderlands* fills part of this gap in existing regional studies by looking at early popular pictorial maps of Arizona. These cartographic representations of the state utilize formal mapmaking conventions to create a place-based state history. They introduce illustrations, unique naming conventions, and written narratives to create carefully visualized landscapes that emphasize the touristic aspects of Arizona. Analyzing the visual culture of tourism in illuminating detail, this book documents how Arizona came to be identified as an appealing tourism destination. Providing a historically situated analysis, Dori Griffin draws on samples from a comprehensive collection of materials generated to promote tourism during Arizona's first half century of statehood. She investigates the relationship between natural and constructed landscapes, visual culture, and narratives of place. Featuring sixty-six examples of these aesthetically appealing maps, the book details how such maps offered tourists and other users a cohesive and storied image of the state. Using historical documentation and rhetorical analysis, this book combines visual design and historical narrative to reveal how early twentieth-century mapmakers and map users collaborated to imagine Arizona as a tourist's paradise.
